```

MLC1001   **CPU-ID *cpuid* is not defined in your product license**

Explanation   The CPU ID listed in the message (*cpuid*) is not defined in your product license. Either your license file is invalid or you have attempted to run the Software AG mainframe product on a machine for which it is not licensed.

Action   Install and run the Software AG product on the machine for which it is licensed. If the problem persists, contact your Software AG sales representative for assistance.

MLC1002   **LPAR name *lparname* is not defined in your product license**

Explanation   The LPAR name listed in the message (*lparname*) is not defined in your product license. Either your license file is invalid or you have attempted to run the Software AG mainframe product on a machine for which it is not licensed.

Action   Install and run the Software AG product on the machine for which it is licensed. If the problem persists, contact your Software AG sales representative for assistance.

MLC1003   **Machine capacity *value* higher than MSUs in your product license**

Explanation   The machine capacity (*value*) of the machine on which you have attempted to install and run the Software AG mainframe product exceeds the capacity allowed in your product license. Either your license file is invalid or you have attempted to run the Software AG mainframe product on a machine for which it is not licensed.

Action   Contact your Software AG sales representative for assistance.

MLC1004   **The product license will expire on *timestamp***

Explanation   This warning message provides the date and time (*timestamp*) when the license will expire for this Software AG mainframe product.

Action   No action is required for this warning message. However, you should contact your Software AG sales representative to obtain an updated license soon.

MLC1005   **We assume CPU-ID *cpuid* as your DR or DR testing environment**

Explanation   The CPU ID listed in the message (*cpuid*) is not defined in your product license. Therefore we assume that you are running in a disaster recovery environment.

Action   If you are running in a disaster recovery environment, no action is required for this warning message. If you are not running in a disaster recovery environment, contact your Software AG sales representative to obtain an updated license.

MLC2001   **The product license is invalid**

Explanation   Your product license is invalid.

Action   Contact your Software AG sales representative for assistance.

MLC2002   **The product license key is invalid**

Explanation   The license file for the Software AG mainframe product is invalid.

Action   Verify that the license file was transferred correctly to the mainframe host and that it is still in ASCII format. If the problem persists, contact your Software AG sales representative for assistance.

MLC2003   **The product license is not for*value***

Explanation   The license file for the Software AG mainframe product is not for the operating system (OS), product code, or product version listed in the message (*value*).

Action   Use the correct license file. If the problem persists, contact your Software AG sales representative for assistance.

MLC2004   **The product license has expired on *timestamp***

Explanation   The product license has expired. The date and time it expired is given in the message (*timestamp*)

Action   Contact your Software AG sales representative for assistance.

MLC2005   **Tag missing in product license: *tagname***

Explanation   The tag with the name listed in the message (*tagname*) is missing in your product license.

Action   Contact your Software AG sales representative for assistance.

MLC2006   **Invalid tag value in product license:** *tagname*

Explanation   The value of the tag with the name listed in the message (*tagname*) is invalid in your
product license.

Action   Contact your Software AG sales representative for assistance.

MLC2007   **Current CPU-ID not found for product license check**

Explanation   The CPU ID of the CPU on which the product license check was run is not found in the
license file.

Action   Contact your Software AG sales representative for assistance.

MLC2008   **The number of MSU values in the product license is incorrect**

Explanation   The machine capacity covered by the product license is incorrect.

Action   Contact your Software AG sales representative for assistance.

MLC9001   **License exceeds maximum size of 8000**

Explanation   Your license file is too large.

Action   Contact your Software AG sales representative for assistance.

MLC9002   **Error opening license file input**

Explanation   An error occurred during an attempt to open the license file input.

Action   Investigate the cause of the error, paying special attention to the corresponding error
messages produced by the operating system. Contact your Software AG sales or support
representative for assistance.

MLC9003   **Error reading license file input**

Explanation   An error occurred during an attempt to read the license file input.

Action   Investigate the cause of the error, paying special attention to the corresponding error
messages produced by the operating system. Contact your Software AG sales or support
representative for assistance.

MLC9004　　　**Error opening license file assembler output**

Explanation　　An error occurred during an attempt to open the license file assembler output.

Action　　Investigate the cause of the error, paying special attention to the corresponding error messages produced by the operating system. Contact your Software AG sales or support representative for assistance.

MLC9005　　　**Error writing license file assembler output**

Explanation　　An error occurred during an attempt to write the license file assembler output.

Action　　Investigate the cause of the error, paying special attention to the corresponding error messages produced by the operating system. Contact your Software AG sales or support representative for assistance.

MLC9006　　　**License converted to assembler output records written to output file**

Explanation　　The license file was successfully converted to an assembler source module. Output records were written to the output file.

Action　　No action is required for this informational message.

MLC9009　　　**DMS Error**

Explanation　　A DMS error occurred (only in BS2000/OSD environments).

Action　　Investigate the cause of the BS2000/OSD DMS error. If you need assistance, contact your Software AG support representative.
