**REV00MNF Message *msg-id* not found in *logon-id***

**Explanation** A message inquiry was made for a message number that is not known to Adabas Review. This will happen if an invalid message number is entered.

**Action** If the message number is for an Adabas Review message, contact your Software AG technical support representative.

**REV00001 Welcome to Adabas Review V *v.r.s* running under *tp-monitor***

**Explanation** This message welcomes users to Adabas Review and indicates the environment under which they are running.

v.r.s	the version, revision, and SM level.
tp-monitor	the active TP monitor.

**Action** This message is for information only.

**REV00002 Review command must begin with subsystem code**

**Explanation** An invalid command was entered from the Adabas Review main menu. All commands from the main menu must begin with a subsystem code as shown on the screen.

**Action** Enter a valid command.

**REV00003 REVTAB not found**

**Explanation** The Adabas Review program *REVTAB* is not available to CICS or is not permanently resident.

**Action** Make sure *REVTAB* is available and permanently resident.

**REV00004      Enter Review command**

**Explanation**      Adabas Review is waiting for terminal input.

**Action**              Press a valid PF key or enter an Adabas Review command.

**REV00005      Invalid command**

**Explanation**      An invalid command was entered into the Adabas Review command line.

**Action**              Press a valid PF key or enter a valid Adabas Review command.

**REV00006      Press 'Enter' to continue initialization process**

**Explanation**      During Adabas Review initialization a series of messages are displayed. Adabas Review will pause whenever a page is full or on the last page.

**Action**              Press ENTER.

**REV00008      No online system of Review is available**

**Explanation**      Adabas Review has determined that there are no online systems available to the user. There are two possible causes:

1. the installation of Adabas Review has not been fully completed.
2. Adabas Review is installed, but your profile prohibits you from accessing the available systems.

**Action**              Contact your Adabas Review administrator.

**REV00011      Interval statistics profile has been created**

**Explanation**      During Adabas Review initialization, the interval statistics profile record was created.

**Action**              This message is for information only.

**REV00012      Report has been saved**

**Explanation**      The request to save a report definition to the Adabas Review repository has completed successfully.

**Action**              This message is for information only.

**REV00013      Now viewing current data**

**Explanation**      You are now viewing current data as opposed to historical data.

**Action**              This message is for information only.

**REV00014      *user-id* is not authorized to use Review**

**Explanation**      Either you have not been defined to Adabas Review, or you are not authorized to use Adabas Review.

**Action**              Contact your Adabas Review administrator.

**REV00015      Report name is required**

**Explanation**      An attempt was made to edit/copy a report without a name.

**Action**              Enter a name in the report name field.

**REV0001      At least one item must be selected**

**Explanation**      An attempt was made to add a report without selecting any items to be used as report criteria.

**Action**              Select one or more fields to be used as criteria by entering a number in its ORDER field.

**REV00020      Order number must not exceed 20 (max number of items)**

**Explanation**      A number greater than 20 was entered into one of the ORDER fields.

**Action**              Enter a number between 1 and 20.

**REV00021      Order number must be unique**

**Explanation**      Duplicate ORDER numbers have been detected.

**Action**              Enter a unique number in each ACCT ORDER to be included in the report.

**REV00025      Now viewing historical data**

**Explanation**      You are now viewing historical data as opposed to current data.

**Action**              This message is for information only.

**REV00026      Report was not saved**

**Explanation**    The request to save a report was not successful. This is usually caused by responding NO when asked if you want to replace the report that was previously saved under the same name.

**Action**            This message is for information only.

**REV0002      There are no detailed records for this report**

**Explanation**    A *detailed response time* report was requested but there are no detail records for the selected report.

**Action**            This message is for information only.

**REV00028      Report was not refreshed**

**Explanation**    This indicates that a request to restart a report was not successful.

**Action**            This message is for information only.

**REV00029      Invalid reply**

**Explanation**    An invalid reply was given to an Adabas Review prompt.

**Action**            Enter a valid reply.

**REV00030      Report has been purged**

**Explanation**    This confirms that the purge report request was successful.

**Action**            This message is for information only.

**REV00032      Report not found**

**Explanation**    An attempt to access a report has failed because the report is not active.

**Action**            This message is for information only.

**REV00033      Unknown return code from purge - RC= *ret-code***

**Explanation**    An unknown return code was returned from the purge reports program due to an internal error.

**Action**            If the problem reoccurs, contact your Software AG technical support representative.

**REV00035      This is the oldest historical snapshot**

**Explanation**    This is the oldest historical snapshot; the NEXT command cannot be entered.

**Action**            This message is for information only.

**REV00036      Do not enter *x* and a direct command**

**Explanation**    A reply was entered into an Adabas Review prompt field and a direct command was entered simultaneously.

**Action**            Either answer the Adabas Review prompt or enter a direct command, but not both.

**REV00037      Invalid response - only valid response is *xxx***

**Explanation**    An invalid response was detected and Adabas Review is prompting the user with the correct response.

**Action**            Enter a valid response.

**REV00038      Report status has been changed**

**Explanation**    This confirms that a request to activate or deactivate a report was successful.

**Action**            This message is for information only.

**REV00043      You must reply 'Y' or 'N'**

**Explanation**    An invalid reply was given in response to an Adabas Review prompt that requires a reply of either yes ("Y") or no ("N").

**Action**            Reply "Y" or "N".

**REV00044            Value must be between 0 and 100****Explanation**            The value entered was not within the range 0 and 100.**Action**                    Enter a value between 0 and 100.**REV00045            Do not mark blank lines****Explanation**            A selection was marked on a line that does not have a value or any data to select.**Action**                    Mark a valid selection or enter an Adabas Review command.**REV00046            Do not mark deleted reports****Explanation**            A character was placed in the select field of a report that was just deleted.**Action**                    Do not place a character in this field.**REV00047            Invalid character****Explanation**            An invalid character was entered into an Adabas Review field.**Action**                    Enter a valid character.**REV00050            Non-zero return code from FREEMAIN****Explanation**            An unexpected return code has occurred while trying to free storage. The return code is also displayed.**Action**                    If the problem recurs, contact your Software AG technical support representative.**REV00054            Now creating sample report *report-name*****Explanation**            When Adabas Review is invoked online for the first time, it adds sample Adabas reports to its system file.**Action**                    This message is for information only.**REV00055            Select a historical snapshot****Explanation**            Select a historical snapshot.**Action**                    This message is for information only.

**REV00057      Use of function is prohibited**

**Explanation**    An attempt was made to perform an Adabas Review function that is not permitted for the user.

**Action**            Contact your Adabas Review administrator.

**REV00058      There are no saved reports to list**

**Explanation**    A request to list report definitions was made but there are no definitions to list.

**Action**            This message is for information only.

**REV00059              Operator command issued**

**Explanation**    The operator command was issued to Com-plete.

**Action**            This message is for information only.

**REV00062      No data has been accumulated for this report**

**Explanation**    A request to display a report cannot be satisfied because the report has not yet accumulated any data.

**Action**            Determine if the report criteria is correct and if so, try again later or else add a new report.

**REV00064              Invalid function**

**Explanation**    An invalid function was entered.

**Action**            Enter a valid function.

**REV00065      DBID missing**

**Explanation**    DBID= was entered on the Adabas Review command line of the Adabas Communication Statistics display, but no corresponding DBID number was given.

**Action**            Enter DBID=*nnn* where *nnn* is a valid DBID number.

**REV00066 Invalid cursor position**

**Explanation** The cursor was placed at an invalid location on a screen that senses the cursor position to perform a function.

**Action** Place the cursor at a valid position or enter an Adabas Review command.

**REV00068 Invalid logical operator**

**Explanation** An invalid logical operator was entered. Valid operators are:  
=, :, <, >, EQ, NE, LT, GT, LE, GE

**Action** Enter a valid logical operator.

**REV00072 Mark one line only**

**Explanation** More than one line was marked to perform a report function. This is not allowed.

**Action** Mark only one line at a time.

**REV00073 Invalid character in select column**

**Explanation** A line has been marked with a character that has no assigned function.

**Action** Mark lines using valid characters.

**REV00074 Invalid Transaction Summary option**

**Explanation** An invalid option was entered into the Transaction Summary Option field in the Edit Report screen.

Valid options are NONE, SUM, and DET.

**Action** Enter a valid option.

**REV00078 Report was not purged**

**Explanation** The request to purge a started report was not performed.

**Action** This message is for information only.

**REV00079 Invalid message prefix**

**Explanation** An inquiry was made for a message number that has an invalid prefix. Message numbers must start with *REV*.

**Action** Enter the MSG command using a valid message number.

**REV00080 Com-plete functions are not valid under CICS**

**Explanation** A Com-plete performance monitor function was attempted. This is not valid under CICS.

**Action** This message is for information only.

**REV00081 Review is not compatible with this version of Com-plete**

**Explanation** A Com-plete performance monitor function was attempted on a version of Com-plete earlier than version 4.4.

**Action** Install the current version of Com-plete.

**REV00082 Select a buffer pool or enter a Review command**

**Explanation** The Adabas Review buffer pool function is waiting for terminal input.

**Action** Select a buffer pool by name or enter an Adabas Review command.

**REV00083 Syntax error in scan command**

**Explanation** A syntax error was detected while processing a scan command on the ET display.

**Action** This message is for information only.

**REV00084 Invalid buffer pool name**

**Explanation** The buffer pool selection entered cannot be identified.

**Action** Enter a valid buffer pool name or enter an Adabas Review command.

**REV00085 Command not allowed in history mode**

**Explanation** The command entered is not allowed in history mode.

**Action** Do not enter command.

**REV00086    No ADAB control block found**

**Explanation**    The Adabas Communication Statistics function was invoked, but there has not been any database access since Com-plete was started. Therefore, there is no database information to display.

**Action**            Try again later.

**REV00087    *nn* Reports removed from AUTOSTART status**

**Explanation**    This confirms that the indicated report definitions have been changed from AUTOSTART to NON-AUTOSTART status.

**Action**            This message is for information only.

**REV00091                    Invalid command code**

**Explanation**            An invalid code was entered for a command.

**Action**                    Enter a valid command code.

**REV00092                    Report has been started**

**Explanation**            This confirms that the request to start a report was successful.

**Action**                    This message is for information only.

**REV00093    Syntax error(s) in report definition**

**Explanation**    The request to start an online report has failed because of syntax errors in the report definition.

**Action**            Correct the report definition and start the report again.

**REV00094    Adabas response code *rsp***

**Explanation**    Adabas has responded with a non-zero response code.

**Action**            Use the *Adabas Messages and Codes* documentation to determine the problem.

**REV00095      Report was not started**

**Explanation**      The request to start a report was not successful.

**Action**              This message is for information only.

**REV00096      User profile is being held by another user**

**Explanation**      An attempt was made to access a user profile that is being updated by another user.

**Action**              Edit the user profile again. Ensure that the changes made to profile do not affect the changes that you are making.

**REV00097      User profile not specified**

**Explanation**      The purge user (PU) command was given without specifying a user profile.

**Action**              When using the purge user (PU) command, specify the user profile you wish to purge. The format for the command is PU *uuuuuuu* where *uuuuuuu* is the user profile.

**REV00098      User profile was not purged**

**Explanation**      A request was made to purge a user profile. When Adabas Review asked for a confirmation, the user decided not to purge the user profile.

**Action**              This message is for information only.

**REV00099      User profile was not found**

**Explanation**      An attempt was made to delete a user profile that was not found in the Adabas Review repository.

**Action**              Check to make sure the user ID you specified is correct.

**REV00100      User profile has been purged**

**Explanation**      This confirms that a request to purge a user profile was successful.

**Action**              This message is for information only.

**REV00101    New user profile**

**Explanation**    The profile that you are editing is new.

**Action**            You may now customize the new user profile. To save this new profile, press PF5 or issue the SAVE command.

**REV00102    User profile was not saved**

**Explanation**    A request was made to save the changes made to a user profile. When Adabas Review asked for a confirmation, the user decided not to save the changes.

**Action**            This message is for information only.

**REV00104    Return code *ret-code* received from *program-name***

**Explanation**    An unexpected return code was received from one of Adabas Review's programs.

**Action**            Record the error message and contact your Software AG technical support representative.

**REV00105            User profile has been saved**

**Explanation**            The changes made to the user profile have been saved.

**Action**            This message is for information only.

**REV00106    No Review control block found**

**Explanation**    (CICS Only) This message appears when *REVTAB* has not been defined as a resident program.

**Action**            Contact your Software AG technical support representative.

**REV00108    Default user profile has been added**

**Explanation**    This message appears the first time Adabas Review is invoked after installation. A DEFAULT user profile is added to the Adabas Review repository, which allows all users to perform all functions of Adabas Review including the ability to maintain user profiles.

**Action**            A logical procedure at this point would be to invoke the user profile system and add yourself as able to maintain user profiles. Then update the DEFAULT profile so that general users cannot maintain user profiles.

**REV00111      No storage available to start report**

**Explanation**    A request to start a report has failed due to insufficient storage. This is probably because of other reports that are using most or all of the storage allocated to Adabas Review.

**Action**            Purge one of the already existing reports or try again later.

**REV00116                      Statistics profile was not saved**

**Explanation**                      The statistics profile was not saved.

**Action**                              This message is for information only.

**REV00120      Users attached for test simulation**

**Explanation**    This confirms that users have been attached to simulate a load on Com-plete.

**Action**            This message is for information only.

**REV00121      Error *error-number* attaching users**

**Explanation**    An error has occurred while trying to attach users for load simulation.

**Action**            If the problem reoccurs, contact your Software AG technical support representative.

**REV00123                      Statistics profile has been saved**

**Explanation**                      The statistics profile has been saved.

**Action**                              This message is for information only.

**REV00124      TID number must be numeric**

**Explanation**    A TID number was entered into the SA screen via the T= or TID= command but is was not numeric.

**Action**            Enter a numeric TID number.

**REV00125      Report definition has been saved successfully**

**Explanation**    This confirms that the request to save a report definition was successful.

**Action**            This message is for information only.

**REV00129 Report definition not found**

**Explanation** An attempt was made to retrieve a report definition but no report definition by that name was found.

**Action** Determine the correct name or create a new definition.

**REV00132 Interval may not be greater than 1440 minutes**

**Explanation** The interval may not be greater than 1440 minutes.

**Action** This message is for information only.

**REV00133 Review is terminating**

**Explanation** A request was made to start, view, or list a report, but Adabas Review is in the process of terminating.

**Action** This message is for information only.

**REV00134 Duplicate report name - report not started**

**Explanation** An attempt to start an Adabas report has failed because a report with the same name is already active.

**Action** Purge the currently active report and retry or start a report with a different name.

**REV00135 Review command not provided**

**Explanation** An attempt was made to communicate with the Adabas Review exit but no Adabas Review command was provided.

**Action** Provide an Adabas Review command.

**REV00137 Insufficient storage to issue Review command**

**Explanation** The Adabas Review exit routine is not accepting communications due to insufficient storage.

**Action** Purge at least one of the started reports.

**REV00138    Insufficient storage to start report**

**Explanation**    An attempt to start an Adabas Review report has failed due to insufficient storage.

**Action**            Purge an active report and retry.

**REV00139    Invalid SUMMARY, MAX or MIN field**

**Explanation**    An attempt to start an Adabas Review report has failed because fields were marked as Sum, Min, Max, or Avg, but these fields are only allowed to be Order fields.

**Action**            Make the fields Order fields only.

**REV00141    Format buffer error**

**Explanation**    A format buffer error has occurred while trying to communicate with the Adabas Review exit routine.

**Action**            Contact your Software AG technical support representative.

**REV00144    Display program not found**

**Explanation**    An attempt to view an active report has failed because the display program for this report cannot be found.

**Action**            Generate a display program by resaving the report definition, if it is available, or change the display program name on the LS screen to a program name that is known to be acceptable for this report.

**REV00145    Natural error: *error-number***

**Explanation**    A Natural error condition occurred. The Natural error message number is displayed.

**Action**            Reference the Natural online message utility for an explanation of the error.

**REV00146    Report definition was not saved**

**Explanation**    The request to save a report definition was cancelled by the user in response to an overlay warning.

**Action**            This message is for information only.

**REV00147    Too many fields - exceeds max linesize - save cancelled**

**Explanation**    The request to save a report definition was cancelled because the resulting generated display program would have exceeded the maximum allowable line size.

**Action**            Reduce the number of fields and try again.

**REV00148        DBID has been changed**

**Explanation**    This confirms that the request to change the target DBID was successful.

**Action**            This message is for information only.

**REV00149        There are no started reports**

**Explanation**    A request to list started reports was made but there are no started reports to list.

**Action**            This message is for information only.

**REV00150        Detailed reports cannot be viewed online**

**Explanation**    Only summary reports can be viewed online. Detailed reports are printed at Adabas termination time.

**Action**            This message is for information only.

**REV00151        Insufficient storage to reactivate report**

**Explanation**    An attempt was made to reactivate a report that was deactivated by Adabas Review due to insufficient storage. The report cannot be reactivated.

**Action**            Use the refresh (RF) command to purge the existing data and start accumulating new information.

**REV00152        Report has been refreshed**

**Explanation**    This confirms that a refresh (RF) command was successful.

**Action**            This message is for information only.

**REV00153    There are no history reports**

**Explanation**    A request to List History Reports was cancelled because there are no history reports to list.

**Action**            This message is for information only.

**REV00155    DBID must be between 0 and 255.**

**Explanation**    An attempt was made to change the DBID number to less than 0 or greater than 255.

**Action**            Enter a DBID number in the range of 0 to 255.

**REV00156    Invalid AND/OR field**

**Explanation**    A value other than AND or OR was entered into the AND/OR field of the selection criteria on the Processing Rules screen.

**Action**            Enter AND or OR.

**REV00157    No field specified**

**Explanation**    No field name was specified for the entered criteria on the Edit Report screen.

**Action**            Enter a field name.

**REV00158    AND/OR field not followed by another condition**

**Explanation**    AND or OR was entered into the AND/OR field of the Processing Rules screen but no condition followed.

**Action**            Either remove the AND/OR or enter another condition.

**REV00159    AND/OR field missing**

**Explanation**    More than one condition was coded on the Processing Rules screen, but no AND/OR was coded for the previous condition.

**Action**            Enter AND/OR on the previous condition

**REV00160      OPERATOR field missing**

**Explanation**      The OPERATOR field has been left blank on a condition.

**Action**              Fill in the OPERATOR field.

**REV00161      VALUE field missing**

**Explanation**      The VALUE field has been left blank on a condition.

**Action**              Fill in the VALUE field.

**REV00162      Invalid OPERATOR field**

**Explanation**      An invalid operator was entered into the OPERATOR field of the Processing Rules screen.

**Action**              Enter a valid operator.

**REV00163      Invalid field name**

**Explanation**      An invalid field name was entered on the Edit Report screen.

**Action**              Press PF11 for a list of valid field names.

**REV00169      ORDER number too high**

**Explanation**      A number greater than 20 was entered into the ORDER field of the Edit Report screen. 20 is the highest number that can be entered.

**Action**              Enter a number between 1 and 20.

**REV00170      *field-name* is not a valid field for SUM, AVG, PCT or ROUND**

**Explanation**      A field was marked for SUM, AVG, PCT, or ROUND on the Edit Report screen, but the field marked is not a numeric field. Fields must have a numeric output to be eligible for SUM, AVG, PCT, or ROUND.

**Action**              Place a number in the ORDER column, and remove any marks for SUM, AVG, PCT, or ROUND.

**REV00171    SAVE/START cancelled by operator**

**Explanation**    The request to save a report definition was cancelled by the user in response to an overlay warning.

**Action**            This message is for information only.

**REV00175    Invalid value**

**Explanation**    An invalid value was entered as part of a logical condition on the Edit Report screen.

**Action**            Enter a valid value.

**REV00176    Internal storage error**

**Explanation**    An internal storage management error has occurred within the Adabas Review nucleus.

**Action**            If the problem recurs, contact your Software AG technical support representative.

**REV0017    ROUND is only valid on fields with an ORDER number**

**Explanation**    A rounding factor was specified for a field that does not also have an order number specified.

**Action**            Enter a number in the ORDER field, or remove the rounding factor.

**REV00179    You must enter ORDER, SUM, MIN, MAX, PCT or AVG**

**Explanation**    A field was entered on the Edit Report screen but no action was specified; i.e. ORDER, SUM, MIN, MAX, PCT, or AVG.

**Action**            Enter a number in the ORDER field and/or an X in one or more of the SUM, MIN, MAX, PCT, or AVG fields

**REV00180    Invalid data in ROUND column**

**Explanation**    The data entered into the round column of the Edit Report screen was not numeric.

**Action**            Enter a number with or without a decimal into the round field.

**REV00181 ADACALL must be an integer between 0 and 32,767**

**Explanation** ADACALL specifies the maximum number of Adabas calls an application can make before the Com-plete / Adabas interface forces the application to be rolled out. This parameter is ignored if ADAROLL=NO is specified.

**Action** Enter a number between 0 and 32,767.

**REV00182 ADALIMIT must be an integer between 0 and 32,767**

**Explanation** ADALIMIT specifies the number of Adabas calls that may be made by an online transaction without any intervening terminal I/O. Programs that exceed this limit are cancelled.

**Action** Enter a number between 0 and 32,767.

**REV00183 ADAROLL must be 'ALWAYS', 'NEVER', or less than 30.99**

**Explanation** ADAROLL specifies the amount of time Com-plete will wait for Adabas calls before rolling out the program making the call.

**Action** Enter ALWAYS, NEVER, or a number less than 30.99.

**REV00184 ADACALL for DBID *dbid* has been changed to *yyyyy* by *user-id***

**Explanation** The ADACALL parameter for the specified database was changed to *yyyyy* through the facilities provided by the Adabas Communication Statistics function (Adabas Calls from Com-plete) in Adabas Review DC.

**Action** This message is for information only.

**REV00185 ADALIMIT for DBID *dbid* has been changed to *yyyyy* by *user-id***

**Explanation** The ADALIMIT parameter for the specified database was changed to *yyyyy* through the facilities provided by the Adabas Communication Statistics function (Adabas Calls from Com-plete) in Adabas Review DC.

**Action** This message is for information only.

**REV00187 Only 'Y' and 'N' are valid values**

**Explanation** The letter "Y" (yes) and the letter "N" (no) are the only two valid values for this field.

**Action** Enter "Y" if you wish the APPLYMOD to be active; or enter "N" if you wish to deactivate the applymod.

**REV00188      The ADABAS/COM-PLETE parameters have been updated**

**Explanation**    This message confirms that the Adabas / Com-plete parameters have been successfully updated.

**Action**            This message is for information only.

**REV00190            Invalid cursor placement for requested function**

**Explanation**        The cursor must be placed on a line that contains valid data.

**Action**            Place cursor on a line with valid data.

**REV00193      Too many xxx fields**

**Explanation**    *xxx* is ORDER, SUM, MIN, MAX, AVG, or ROUND. There were too many of the indicated fields to process. When all field names are combined, they will not fit into an 80-byte statement. The 80-byte statements are used internally by Adabas Review for report definition storage.

**Action**            Reduce the number of fields by one until the message disappears.

**REV00195      Invalid page number entered**

**Explanation**    A number was entered on the Adabas Review command line that was greater than the actual number of pages available.

**Action**            Enter a valid page number.

**REV00196            Roll buffer not allocated**

**Explanation**        The roll buffer is not allocated.

**Action**            This message is for information only.

**REV00197            Roll data sets not allocated**

**Explanation**        The roll data sets are not allocated.

**Action**            This message is for information only.

**REV00198            User not logged on**

**Explanation**            The user is not logged on.

**Action**                    This message is for information only.

**REV00199    Invalid wrap option**

**Explanation**    An invalid wrap option was specified in the report definition. The option must be NONE, STD, or HIGH.

**Action**                This message is for information only.

**REV00200    Low water mark must be less than high water mark**

**Explanation**    The low water mark specified was higher than or equal to the high water mark.

**Action**                Enter a number less than the high water mark.

**REV00202    Review is not installed in database *dbid***

**Explanation**    An attempt was made to either start a report or to list started reports against a database that either does not have Adabas Review installed as a user exit 4 or does not currently have LOGGING turned on.

**Action**                Verify that Adabas Review is installed on the target DBID. If it is, ensure that ADARUN LOGGING=YES has been specified and that LOGGING has not been subsequently disabled from the operator console.

**REV00203    Report hard copy has been queued**

**Explanation**    This confirms that a request to send report output to a hardcopy device completed successfully, and that the report is either now printing or has been placed on the queue to be printed.

**Action**                This message is for information only.

**REV00205    Invalid display program name**

**Explanation**    An attempt was made to change the display program name using the CP command of the List Reports screen, but the new name is blank or invalid.

**Action**                Enter a valid program name.

**REV00206    Display program name has been changed**

**Explanation**    This confirms that the request to change the display program name using the CP command of the List Report Definitions screen was successful.

**Action**            This message is for information only.

**REV00207            Report definition was purged by another user**

**Explanation**        The report definition selected is being purged by another user.

**Action**            This message is for information only.

**REV00209    Invalid character in report name**

**Explanation**    An invalid character such as a quotation mark or a period was used as part of the report name.

**Action**            Remove the invalid character from the report name.

**REV00210    Invalid start/stop date**

**Explanation**    A date range was entered for viewing a history report but the date(s) are not valid. This may mean that the starting date is greater than the ending date, or that invalid numeric data or an invalid date format has been entered.

**Action**            Enter a valid date range in the form of *yyyy-mm-dd* or press ENTER to default to the maximum date range.

**REV00211    History reports must be purged from the expanded list**

**Explanation**    An attempt was made to purge a history report from the LH screen. This is not a valid LH function. The list must be expanded using the EX command before history reports can be purged.

**Action**            Enter EX in the SEL column next to the report to be purged. An expanded list will appear from which the Purge History Report (PH) function can be executed.

**REV00212    Enter date range**

**Explanation**    This prompts you to enter a date range before viewing a history report. The maximum date range (all dates) is the default.

**Action**            Enter a date range in the form of *yyyy-mm-dd*, or press ENTER to default to the maximum date range.

**REV00214      Display program regeneration complete****Explanation**      The request to regenerate display programs has completed successfully.**Action**              This message is for information only.**REV00217      Review system file not available****Explanation**      Adabas Review attempted to read information from its system file but received an Adabas response code of 148 (ADARSP148).**Action**              Bring up the database that has the Adabas Review repository and make sure that the LFILE parameter has been specified correctly.**REV00218      Default system must be 'DB', 'DC', 'MM', or 'NM'****Explanation**      An invalid value was entered for default system. The valid system codes are:

DB	Database (Adabas Review)
DC	Data Communication
MM	Main Menu
NM	Natural Monitor

**Action**              Enter a valid system code.**REV00219      Input not numeric****Explanation**      A value was entered into a field that is intended to accept numeric data only.**Action**              Enter a valid numeric value.**REV00220      Auto regenerate started****Explanation**      The subtask to generate auto-report definitions was successfully started.**Action**              This message is for information only.**REV00221      Auto regenerate already active****Explanation**      The subtask to generate auto-report definitions is still active from a previous execution.**Action**              Wait a few seconds and try the command again.

**REV00222      Auto regenerate failed**

**Explanation**    The subtask to regenerate auto-report definitions was not attached and did not run.

**Action**            Check your Adabas STEPLIB and make certain that the module RAOSAUTO is present.

**REV00223            UEX4 version error**

**Explanation**        The Adabas UEX4 module RAOSEXIT is not the correct version.

**Action**            Verify that Adabas Review has been correctly installed.

**REV00224      MSG function not available from this screen**

**Explanation**        The Adabas Review message help subsystem is not available from this screen.

**Action**            Perform the MSG function from another screen.

**REV00225            DBID must be between 1 and 65535**

**Explanation**        The target database ID must be in the range between 1 and 65535.

**Action**            Enter a database ID in the specified range.

**REV00226                    SVC cannot be 0**

**Explanation**            The SVC specified cannot be 0.

**Action**            Enter a correct SVC number.

**REV00227            Target type must be 'ADA', 'NET', 'NPR', or 'TPF'**

**Explanation**        The target type must be one of the specified values.

**Action**            Enter the correct target type.

**REV00228      DBID for Adabas target type must be less than 255**

**Explanation**        If the target type is *ADA*, then the target database ID must be in the range of 1 to 255.

**Action**            Enter a database ID in the specified range.

<b>REV00229</b>	<b>Field value must be 'Y' or 'N'</b>
<b>Explanation</b>	An invalid value was entered for the field.
<b>Action</b>	Enter a valid field value: either yes ("Y") or no ("N").
<b>REV00230</b>	<b>No target definition found for target <i>target-id</i></b>
<b>Explanation</b>	The target definition did not exist for the requested target.
<b>Action</b>	Define the target.
<b>REV00231</b>	<b>Target definition for DBID <i>dbid</i> saved</b>
<b>Explanation</b>	The target definition was successfully saved.
<b>Action</b>	This message is for information only.
<b>REV00234</b>	<b>Default definition cannot be purged</b>
<b>Explanation</b>	The default definition for target 00000 cannot be purged.
<b>Action</b>	This message is for information only.
<b>REV00235</b>	<b>Target definition(s) purged successfully</b>
<b>Explanation</b>	The target definitions marked for purge were successfully deleted.
<b>Action</b>	This message is for information only.
<b>REV00236</b>	<b>No target definition exists for DBID <i>dbid</i> and default is not present</b>
<b>Explanation</b>	The target definition for the database specified did not exist, and there was also no default definition.
<b>Action</b>	Add the target definition for the specified target.
<b>REV00237</b>	<b>Generate started</b>
<b>Explanation</b>	The subtask to generate report definitions was successfully started.
<b>Action</b>	This message is for information only.

**REV00238      Generate already active**

**Explanation**    The subtask to generate report definitions is still active from a previous execution.

**Action**            Wait a few seconds and try the command again.

**REV00239      Generate failed**

**Explanation**    The subtask to generate report definitions was not attached and did not run.

**Action**            Check your Adabas STEPLIB and make certain that the module RAOSAUTO is present.

**REV00240      Function cancelled**

**Explanation**    The requested function was terminated by user request and was not performed.

**Action**            This message is for information only.

**REV00241      Review file set successfully**

**Explanation**    The Adabas Review data file's database ID and file number were set successfully.

**Action**            This message is for information only.

**REV00242      Unable to open command log file for output**

**Explanation**    A report was started with the logging option set to "Y" (yes), but the file specified for output cannot be opened. The report is started without logging.

**Action**            If this is an online report, make sure the DSN field of the Report Options screen is set to a valid command log output file. If this is a batch report, make sure the DSN= parameter of the LOG statement is set to a valid command log output file.

**REV00243      Adabas Online Services is not installed**

**Explanation**    The request to invoke Adabas Online System (AOS) from Adabas Review has failed because AOS is not installed in the current Natural system file.

**Action**            This message is for information only.

**REV00244      Components not installed properly****Explanation**      The installation process did not complete successfully.**Action**              Make sure that all INPL and IUPD tapes are properly installed.**REV00245      PFnn not defined****Explanation**      The PF key that was pressed is not defined to perform a function.**Action**              Press a valid PF key.**REV00246      Press 'PF3' to exit or 'PF5' to save the profile****Explanation**      To exit without saving the changes made to a user profile, press PF3. To save the changes made to a user profile, press PF5.**Action**              See explanation.**REV00247                      Userid must be specified****Explanation**                      A user ID must be specified.**Action**                      Enter a user ID.**REV00248      Natural error *error-number* has occurred on line *line-number* of program *program-name*****Explanation**      A Natural error has occurred in one of Adabas Review's programs.**Action**              Record the information given in the message and contact your Software AG technical support representative.**REV00249      Command log data set already in use****Explanation**      A report was started with the logging option set to "Y" (yes), but the specified output data set is already in use by another report. The report is started without logging.**Action**              Either use another data set, or purge the report that is using the command log data set.

**REV00250    Logging is not valid for summary reports**

**Explanation**    LOGGING was specified on the Report Options screen for a summary report. Only detail reports can perform the LOGGING function.

**Action**            Either set LOGGING to "N" or set SUM/DETAIL to "D".

**REV00252    At least one field is required**

**Explanation**    An attempt was made to save a report definition with no fields to be displayed. At least one field is required to save a report.

**Action**            Correct the report definition and press PF5 to save the report definition.

**REV00253    There are no report definitions on file**

**Explanation**    A request to list report definitions cannot be satisfied because there are no definitions to list.

**Action**            This message is for information only.

**REV00254    At least one order field is required**

**Explanation**    An attempt to save a summary report failed because there are no ORDER fields. At least one ORDER field is required for summary reports.

**Action**            Make at least one field an ORDER field and save the report.

**REV00255    Report definition conversion complete**

**Explanation**    The process of converting Adabas Review report definitions has completed.

**Action**            This message is for information only.

**REV00256    History file conversion complete**

**Explanation**    The process of converting Adabas Review history reports completed.

**Action**            This message is for information only.

**REV00257      User profile conversion complete**

**Explanation**      The process of converting Adabas Review user profiles has completed.

**Action**              This message is for information only.

**REV00258      Report definition conversion was cancelled**

**Explanation**      The process of converting Adabas Review report definitions was cancelled at the request of the user. Any reply other than "yes" or "change" on the LFILE confirmation screen will cause this message.

**Action**              This message is for information only.

**REV00259      History file conversion was cancelled**

**Explanation**      The process of converting Adabas Review history reports was cancelled at the request of the user. Any reply other than "yes" or "change" on the LFILE confirmation screen will cause this message.

**Action**              This message is for information only.

**REV00260      User profile conversion was cancelled**

**Explanation**      The process of converting Adabas Review user profiles was cancelled at the request of the user. Any reply other than "yes" or "change" on the LFILE confirmation screen will cause this message.

**Action**              This message is for information only.

**REV00261      There are no report definitions to convert**

**Explanation**      An attempt was made to convert report definitions, but there are none to convert. Adabas Review only converts report definitions that do not already exist in the target Adabas Review repository.

**Action**              This message is for information only.

**REV00262      There are no history reports to convert**

**Explanation**      An attempt was made to convert Adabas Review history reports, but there are none to convert.

**Action**              This message is for information only.

**REV00263    There are no user profiles to convert**

**Explanation**    An attempt was made to convert Adabas Review user profiles, but there are none to convert. Adabas Review only converts user profiles that do not already exist in the target Adabas Review repository.

**Action**         This message is for information only.

**REV00264    Error *error-number* while trying to convert report definitions**

**Explanation**    Either an Adabas or a Natural error has occurred while trying to convert report definitions.

**Action**         Follow the Adabas or Natural procedures for error correction.

**REV00265    Error *error-number* while trying to convert history reports**

**Explanation**    Either an Adabas or a Natural error has occurred while trying to convert history reports.

**Action**         Follow the Adabas or Natural procedures for error correction.

**REV00266    Error *error-number* while trying to convert user profiles**

**Explanation**    Either an Adabas or a Natural error occurred while trying to convert user profiles.

**Action**         Follow the Adabas or Natural procedures for error correction.

**REV00267    Do not try to convert to and from the same file**

**Explanation**    An attempt was made to run an Adabas Review conversion program with identical TO and FROM files.

**Action**         Correct the LFILE for the TO or FROM file.

**REV00268    Invalid file number**

**Explanation**    The user attempted to change the database ID and file number of the Adabas Review repository. The file number specified was not an Adabas Review file.

**Action**         Specify a correct Adabas Review DBID/file number.

**REV00269**      **No active targets found on SVC *svc***

**Explanation**      No active database targets were found on the SVC number specified in the message.

**Action**              Verify that the target definitions are defined to the correct SVC number.

**REV00270**      **Database *dbid* is a Natural Process target**

**Explanation**      The target selected is a Entire System Server (formerly Natural Process) target type.

**Action**              This message is for information only.

**REV00271**                      **Database *dbid* is not active**

**Explanation**                      The database selected is not active.

**Action**                      This message is for information only.

**REV00272**                      **Database *dbid* is a non-Adabas target**

**Explanation**                      The database selected is a non-Adabas type target.

**Action**                      This message is for information only.

**REV00273**      **Report is already suspended**

**Explanation**      An attempt was made to suspend a report that was is already suspended.

**Action**              This message is for information only.

**REV00274**      **Invalid OP summary option**

**Explanation**      An invalid option was entered on the Edit Report screen for the OP summary parameter.

**Action**              Enter a valid option.

**REV00275**                      **New report definition**

**Explanation**                      A new report definition is being created.

**Action**                      Enter the parameters for the new report definition or exit.

**REV00276 Report is already active**

**Explanation** An attempt was made to reactivate a report that was already active.

**Action** This message is for information only.

**REV00277 History data has been purged**

**Explanation** Historical data was purged.

**Action** This message is for information only.

**REV00278 History data was not purged**

**Explanation** Historical data was not purged.

**Action** This message is for information only.

**REV00279 History data not found**

**Explanation** Historical data was not found.

**Action** This message is for information only.

**REV00280 Available storage in thread insufficient**

**Explanation** The available storage in the thread is insufficient.

**Action** Contact your Software AG technical support representative.

**REV00281 An invalid request or an invalid FQE was found**

**Explanation** An invalid request or an invalid free queue element (FQE) was found.

**Action** Contact your Software AG technical support representative.

**REV00282 No response time report definition was specified**

**Explanation** No response time report definition was specified.

**Action** Contact your Software AG technical support representative.

**REV00283                    Report definition has been purged**

**Explanation**                    Report definition has been purged.

**Action**                            This message is for information only.

**REV00284                    Report definition was not purged**

**Explanation**                    Report definition was not purged.

**Action**                            This message is for information only.

**REV00285    Invalid device type for download**

**Explanation**    An attempt was made to download a report but the Natural session is not in PC mode.

**Action**                    If the device is a PC using Entire Connection, set your Natural session to PC mode by entering %+ on the command line, and reenter the DL command.

**REV00286            Duplicate order numbers**

**Explanation**            More than one field has the same order number on the Edit Report screen.

**Action**                    Make each order number unique.

**REV00288            Report is not active**

**Explanation**            An attempt was made to perform a function on a started report, but no started report with the specified report name was found.

**Action**                    This message is for information only.

**REV00289            LOG command not allowed while viewing data**

**Explanation**            An attempt was made to issue the LOG command while viewing a report.

**Action**                    Stop viewing the report and reissue the LOG command.

**REV00290            Adabas Review logging status changed**

**Explanation**            The Adabas Review dynamic logging options have been updated.

**Action**                    This message is for information only.

**REV00291 Error returned during LOG request - nnnn**

**Explanation** The LOG command was issued and an error occurred during processing. nnnn = the response code associated with the error.

**Action** Follow the Adabas or Natural procedures for error correction.

**REV00292 Review not installed on database**

**Explanation** While attempting to view the buffer pool display, Adabas determined that Adabas Review was not installed on that database and issued a response code.

**Action** This message is for information only.

**REV00293 Function restarted due to Adabas rsp code 9**

**Explanation** A Adabas Review function was restarted from the beginning because an Adabas response code 9 (ADARSP009) was received.

**Action** This message is for information only.

**REV00294 NM component not installed**

**Explanation** An attempt was made to enter Adabas Review NM, but the NM component was not on the installation tape.

**Action** Determine whether the NM component was actually purchased. If it was purchased, then you may have inadvertently received the wrong Adabas Review installation tape. Contact your Software AG representative.

**REV00295 Select a history report**

**Explanation** An attempt was made to view a list of dates and times of history records for a response time report without specifying the name of the report.

**Action** Specify the response time name.

**REV00296 TID must be between 1 and 65,535**

**Explanation** The terminal ID (TID) must be between 1 and 65,535.

**Action** Enter a valid TID number.

**REV00297          Invalid TID specified**

**Explanation**          An invalid terminal ID (TID) was specified.

**Action**                  Enter a valid TID number.

**REV00299          Function has been discontinued**

**Explanation**          The current version of Adabas Review no longer supports the requested function.

**Action**                  Refer to the *Adabas Review User* documentation for a list of available features and functions.

**REV00300          Report not on file**

**Explanation**          The requested report definition could not be found in the Adabas Review data file.

**Action**                  This message is for information only.

**REV00301          No OP summary information available**

**Explanation**          No OP summary information was available for the report specified.

**Action**                  This message is for information only.

**REV00306          First field cannot be a buffer segment**

**Explanation**          A DB report was defined with the first field as a buffer segment (FBSEG01, RBSEG01 ETC). The first field cannot be a buffer segment.

**Action**                  Make another field the first field.

**REV00307          No resident PGMLIB defined**

**Explanation**          A request was made to view a list of programs in the resident program library buffer, but none were defined to Com-plete.

**Action**                  This message is for information only.

**REV00308    No resident programs defined**

**Explanation**    A request was made to view a list of programs in the resident programs, but none were defined to Com-plete.

**Action**            This message is for information only.

**REV00309            Unable to locate Adabas IDTH**

**Explanation**        Adabas Review was unable to locate the Adabas IDT header.

**Action**            Contact your Software AG technical support representative.

**REV00310    Unable to load ADALDI**

**Explanation**    Adabas Review was unable to load the ADALDI text module from the Adabas TXTLIB.

**Action**            Verify that the Adabas TXTLIB is accessible from your z/VM machine.

**REV00311    Database *dbid* has been ignored**

**Explanation**    The specified database has been ignored because an entry for the DBID was found in the IGNORE table in program N-IGNORE. No STATUS information is returned for this database.

**Action**            If STATUS information for the database should be returned, edit and STOW the program N-IGNORE.

**REV00312    Insufficient storage to reset stopwatch**

**Explanation**    An attempt to reset the stopwatch was unsuccessful due to insufficient storage.

**Action**            Try again later.

**REV00313            Only 'ON' and 'OFF' are valid values**

**Explanation**        A value other than ON or OFF was entered.

**Action**            Enter ON or OFF.

**REV00314            Command log data set switched**

**Explanation**            The command log data set was switched successfully.

**Action**                    This message is for information only.

**REV00315            Command logging is not active for report**

**Explanation**            Adabas Review command logging is not active for the specified report.

**Action**                    Choose a report that has command logging.

**REV00316            Invalid subpool ID**

**Explanation**            The subpool ID specified was invalid.

**Action**                    Select a valid subpool.

**REV00317            There are no transaction summary records**

**Explanation**            A Response Time Report was requested but no transaction summary records exist for the selected report.

**Action**                    This message is for information only.

**REV00318            There are no OP summary records**

**Explanation**            A Response Time Report was requested but no OP summary records exist for the selected report.

**Action**                    This message is for information only.

**REV00319            Too many "AND" fields in selection criteria**

**Explanation**            The AND fields in the selection criteria have resulted in a data string that is too long for Adabas Review to process.

**Action**                    Reduce the number of AND statements and resave the report.

**REV00320    Too many "OR" fields in selection criteria**

**Explanation**    The OR fields in the selection criteria have resulted in a data string that is too long for Adabas Review to process.

**Action**            Reduce the number of OR statements and resave the report.

**REV00321    Target SVC cannot be greater than 255**

**Explanation**    A value larger than allowed was entered in the SVC field of the target definition. The maximum value for this field is 255.

**Action**            Enter the correct SVC number.

**REV00322    User has already been cancelled**

**Explanation**    The user specified in the cancel function has already been cancelled.

**Action**            This message is for information only.

**REV00323                    TID *terminal-id* cancelled**

**Explanation**            The specified terminal ID has been cancelled.

**Action**                    This message is for information only.

**REV00325                    TERMINAL *terminal-name* cancelled**

**Explanation**            The specified terminal has been cancelled.

**Action**                    This message is for information only.

**REV00326    TID *terminal-id* not found**

**Explanation**    The terminal ID specified in the cancel, pick, or force function could not be found.

**Action**            This message is for information only.

**REV00327    User *user-id* not found**

**Explanation**    The user specified in the cancel, pick, or force function could not be found.

**Action**            This message is for information only.

**REV00328    Terminal *terminal-name* not found****Explanation**    The terminal name specified in the cancel, pick, or force function could not be found.**Action**            This message is for information only.**REV00329    Invalid TID specified****Explanation**    The terminal ID number specified in the cancel, pick, or force function was not a valid numeric value.**Action**            This message is for information only.**REV00330    Response time report - *report-name* STARTED****Explanation**    The specified Adabas Review response time report was successfully autostarted.**Action**            This message is for information only.**REV00331    No autostarted reports found to start****Explanation**    No Adabas Review Response Time reports were found to autostart.**Action**            This message is for information only.**REV00332    One report has been autostarted****Explanation**    Adabas Review has started one autostarted response time report.**Action**            This message is for information only.**REV00333    *count* reports have been autostarted****Explanation**    Adabas Review started the specified number of autostarted response time reports.**Action**            This message is for information only.**REV00334    History task recovery from Adabas time-out****Explanation**    The Adabas Review history interval task successfully recovered from an Adabas timeout (response code 9, ADARSP009).**Action**            This message is for information only.

**REV00335 RNMH history task initializing in Natural**

**Explanation** The Adabas Review history interval task successfully invoked Natural and is initializing.

**Action** This message is for information only.

**REV00336 History task terminating. Unable to locate RNMTAB**

**Explanation** The Adabas Review history interval task terminated because it was unable to locate RNMTAB.

**Action** Check that RNMTAB has been defined to CICS as a resident PPT entry, and that RNMTAB is available to CICS.

**REV00337 History task terminating. Unable to load *module-id***

**Explanation** The Adabas Review history interval task terminated because it was unable to locate the RNMCIICS.

**Action** Check that RNMCIICS has been defined to CICS as a PPT entry and that RNMCIICS is available to CICS.

**REV00338 History task terminating. Natural error *error-number* detected during initialization**

**Explanation** The Adabas Review history interval task terminated because it encountered a Natural error during initialization.

**Action** Investigate the Natural error indicated, correct the problem, and restart the history subsystem.

**REV00339 History task terminating. NM data file has not been initialized**

**Explanation** The Adabas Review history interval task terminated because it detected that the Adabas Review Natural Monitor data file was not initialized.

**Action** Verify that the INSTALL program has been executed to initialize the Adabas Review Natural Monitor data file.

**REV00340 History task terminating. Non-recoverable Natural error detected**

**Explanation** The Adabas Review history interval task terminated because it encountered an error in Natural from which it could not recover.

**Action** Investigate the Natural error indicated, correct the problem, and restart the history subsystem.

**REV00341 History task terminating normally**

**Explanation** The Adabas Review history interval task terminated normally.

**Action** This message is for information only.

**REV00342 History task terminating. Maximum reinitialization counter exceeded**

**Explanation** The Adabas Review history interval task terminated because the counter for maximum reinitializations was exceeded.

**Action** Check messages sent to Adabas Review prior to this message to determine why the history task has reinitialized so many times.

**REV00343 History task terminating**

**Explanation** The Adabas Review history interval task terminated.

**Action** Check other Adabas Review messages issued prior to this message to determine if an error condition was encountered.

**REV00344 TID *terminal-id* cancelled by *user-id* at terminal *terminal-name***

**Explanation** The user with the specified terminal ID was cancelled by another user at another terminal.

**Action** This message is for information only.

**REV00345 User *user-id* cancelled by *user-id* at terminal *terminal-name***

**Explanation** The user with the specified user ID was cancelled by another user at another terminal.

**Action** This message is for information only.

**REV00346**     **Terminal *terminal-name* cancelled by *user-id* at terminal *terminal-name***

**Explanation**     The terminal with the specified name was cancelled by another user at another terminal.

**Action**             This message is for information only.

**REV00347**             **TID *terminal-id* forced**

**Explanation**         The user with the specified terminal ID was forced.

**Action**                This message is for information only.

**REV00348**             **User *user-id* forced**

**Explanation**         The user with the specified user ID was forced.

**Action**                This message is for information only.

**REV00349**             **Terminal *terminal-name* forced**

**Explanation**         The terminal with the specified name was forced.

**Action**                This message is for information only.

**REV00350**     **TID *terminal-id* forced by *user-id* at terminal *terminal-name***

**Explanation**     The user with the specified terminal ID was forced by another user at another terminal.

**Action**             This message is for information only.

**REV00351**     **User *user-id* forced by *user-id* at terminal *terminal-name***

**Explanation**     The user with the specified user ID was forced by another user at another terminal.

**Action**             This message is for information only.

**REV00352**     **Terminal *terminal-name* forced by *user-id* at terminal *terminal-name***

**Explanation**     The terminal with the specified name was forced by another user at another terminal.

**Action**             This message is for information only.

**REV00353    User must be cancelled before force**

**Explanation**    A CANCEL command must be issued for a user before a FORCE command can be issued.

**Action**            This message is for information only.

**REV00354    Invalid autostart option**

**Explanation**    An invalid response time report autostart option was specified. The value must be "Y" or "N".

**Action**            Specify valid value.

**REV00355    Invalid history refresh option**

**Explanation**    An invalid response time report history refresh option was specified. The value must be "Y" or "N".

**Action**            Specify a valid value.

**REV00356    Value must be in range *range-start* through *range-end***

**Explanation**    The value specified is invalid for the field. Valid values are denoted by <range-start> through <range-end> in the message.

**Action**            Specify a valid value in the range specified.

**REV00357    History task terminating. Review NM incorrectly installed**

**Explanation**    The Adabas Review history interval task terminated because it was unable to verify that the Adabas Review Natural Monitor code was correctly linked with the Natural nucleus.

**Action**            Verify that the Adabas Review NM code is correctly linked with the Natural nucleus.

**REV00359                    Report definition has been copied**

**Explanation**            The request to copy a report definition was successful.

**Action**                    This message is for information only.

**REV00360    Review repository not available**

**Explanation**    An Adabas response code 148 (ADARSP148) was received while trying to store information in an Adabas Review repository.

**Action**            Insure that the database ID and file number are correct and that the database is available.

**REV00361    Database *dbid* inactive or invalid. Type 'TECH' for reason**

**Explanation**    The user attempted to perform an Adabas Review function against a database that was inactive, did not have Adabas Review installed, or was not running a compatible version of Adabas Review.

**Action**            From the Database System menu, type TECH to determine why the current Adabas Review database is invalid and correct the error.

**REV00362    Review is not installed in database *dbid***

**Explanation**    Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The database selected did not have Adabas Review installed.

**Action**            Verify that the database specified in the DBID= command is a valid Adabas Review database.

**REV00363    Database *dbid* is not active**

**Explanation**    Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The database selected was not active (Adabas response code 148, ADARSP148).

**Action**            Verify that the database specified in the DBID= command is a valid Adabas Review database and that it is active.

**REV00364    Database *dbid* is below Review V3.4**

**Explanation**    Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The database selected has an invalid version of Adabas Review installed.

**Action**            Verify that the database specified in the DBID= command is a valid Adabas Review database.

**REV00365      Response code *rsp* received accessing DBID *dbid***

**Explanation**      Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The user received the indicated response code.

**Action**              Verify that the database specified in the DBID= command is a valid Adabas Review database.

**REV00366      TECH command only available from the DB system main menu**

**Explanation**      The user attempted to executed the TECH command from an Adabas Review panel other than the Database System menu. The Adabas Review TECH command is only executable from the Database System menu.

**Action**              Execute the TECH command from the Database System menu.

**REV00367      Display program does not match report**

**Explanation**      A VIEW or VW command terminated because the display program invoked was generated for a different report.

**Action**              Regenerate the display program for the report that failed using the RG function of the List Reports screen.

**REV00368      Parentheses are required for a list or range**

**Explanation**      A list or range of values was entered without parentheses into a processing rule.

**Action**              Include the values within parentheses.

**REV00369      Unpaired parentheses**

**Explanation**      The number of opening and closing parentheses are unequal.

**Action**              Include a closing parentheses for each opening parentheses.

**REV00370      Invalid HELP command**

**Explanation**      An invalid command was entered into the command line of a help screen.

**Action**              Enter a valid command or press a valid PF key.

**REV00371      GENAUTO is not available in CMS**

**Explanation**    A GENAUTO (or GA) command was entered but is not implemented in z/VM.

**Action**            This message is for information only.

**REV00372      Download is invalid from this screen**

**Explanation**    DOWNLOAD (or DL) was entered from a screen where the DOWNLOAD command is invalid.

**Action**            Enter DL into the SEL column of the List Started Reports screen.

**REV00373      MAX K must be at least *n* K**

**Explanation**    The MAX K value specified in the report options must be at least 4K for z/OS and z/VSE and at least 8K for BS2000.

**Action**            Specify a value for MAX K that is at least the minimum.

**REV00374      WRAPPING=Y only allowed on sequence reports**

**Explanation**    The WRAPPING value can only be set to "Y" for a SUMMARY report with SEQUENCE as the first display field.

**Action**            Only specify WRAPPING=Y for SUMMARY reports with SEQUENCE as the first field.

**REV00375      Invalid page size - must be 1-255**

**Explanation**    The page size entered on the Report Options screen is invalid. The value must be between 1 and 255.

**Action**            Enter a valid page size.

**REV00385                      Value must be greater than 0.**

**Explanation**            The value must be greater than 0.

**Action**                      This message is for information only.

**REV00386 FNR must be between 1 and 254**

**Explanation** An attempt was made to change the FNR number to less than 1 or greater than 254.

**Action** Enter a FNR number in the range of 1 to 254.

**REV00390 List not sorted due to excessive report data**

**Explanation** The expanded list of history report occurrences could not be sorted because the resulting ISN list was too large. The list is displayed unsorted.

**Action** Increase the value in the LS ADARUN parameter.

**REV00391 History report compression complete**

**Explanation** The request to compress a history report completed successfully.

**Action** This message is for information only.

**REV00392 File is in use by another compression process**

**Explanation** An attempt was made to compress a history report but another report was being compressed at the time. This message can also occur if a CH function did not complete successfully.

**Action** If another report is being compressed, wait until it completes and try again. If a CH function failed, you must run the RESET function.

To run the RESET function:

1. Enter RESET HISTORY FILE on the command line of the DB System menu.
2. Follow the instructions on the screen.

**REV00393 Compression will not be performed**

**Explanation** A reply of "N" was given in response to the confirmation prompt prior to compressing a history report.

**Action** This message is for information only.

**REV00394 History file does not need resetting**

**Explanation** A request to reset the history file was made but the file does not need resetting.

**Action** This message is for information only.

**REV00395 History file has been reset**

**Explanation** This confirms that the history file has been reset. This essentially unlocks the lock that was placed on the file during a CH function.

**Action** None if the message says HISTORY FILE HAS BEEN RESET.

If the message also says DATA WAS LOST, restore the history file to a state prior to when the failing CH function was performed.

**REV00396 Duplicate field in "AND" expression**

**Explanation** A logical "AND" expression contains a duplicate field name in a processing rule. When using "AND" to connect fields, each field name can be used only once per expression.

**Action** Remove the duplicate field name from the expression.

**REV00397 Target DBID has been changed**

**Explanation** The target DBID has been successfully changed for the report definition.

**Action** This message is for information only.

**REV00398 Bufferpool reports cannot be printed or downloaded**

**Explanation** The graphical bufferpool reports cannot be downloaded or printed: they may only be viewed.

**Action** Use the VW command to view the report.

**REV00399 AA is not available in VM/CMS**

**Explanation** The AA function is not available in z/VM.

**Action** This message is for information only.

**REV00400 Non zero response from target = *nnn***

**Explanation** A non-zero response code was returned from the specified target.

**Action** Determine why the non-zero response code occurred.

**REV00401      Report defaults were saved**

**Explanation**      The report defaults were saved successfully.

**Action**              No action is required for this informational message.

**REV00402      No matching reports to generate**

**Explanation**      GENAUTO was started in local mode, but there are no autostarted reports with DBID-TO-MONITOR set to the local DBID. No autostarted reports will be generated.

**Action**              No action is required for this informational message.

**REV00403      Update completed**

**Explanation**      The report options were updated successfully.

**Action**              No action is required for this informational message.

**REV00404      No changes to update**

**Explanation**      A request to update reports was unnecessary because no changes were made.

**Action**              No action is required for this informational message.

**REV00405      Cannot start a rpt that monitors a hub**

**Explanation**      A request to start a report was unsuccessful because the DBID-TO-MONITOR was set to the Adabas Review hub ID. Adabas Review reports can only monitor Adabas targets.

**Action**              Correct the report and retry.

**REV00406      Only one buffer segment allowed per report**

**Explanation**      More than one buffer segment was defined in a report. Only one buffer segment per report is allowed.

**Action**              Correct the report and retry.

**REV00407    There are no history records to convert**

**Explanation**    An attempt was made to convert history records, but there are no history records to convert.

**Action**            No action is required for this informational message.

**REV00408    Only 1 order field allowed with sum exit**

**Explanation**    A summary exit was specified, but more than one order field was chosen for the report. Summary exit reports are limited to one (1) order field.

**Action**            Reduce the number of order fields to 1.

**REV00409    Heartbeat report cannot be purged**

**Explanation**    A request to purge the Heartbeat report was made. The Heartbeat report cannot be purged.

**Action**            No action is required for this informational message.

**REV00410        Report defaults not saved**

**Explanation**        A user canceled a prompt to confirm the saving of report defaults.

**Action**            No action is required for this informational message.

**REV00411    xxxxxxxx cannot be edited**

**Explanation**    The EP command was used to edit a display program, but the display program is for a fixed format report. Since these programs are specific, not dynamic, no source code is available to the user.

**Action**            No action is required for this informational message.

**REV00412    NUCID *nnnnn* is not available**

**Explanation**    An attempt was made to change the nucleus ID with which Adabas Review communicates, but the requested nucleus ID was not available.

**Action**            Enter the NUC LIST command to obtain a list of available nucleus IDs and try again.

**REV00413      NUCID only valid for cluster databases**

**Explanation**    A user executed the NUCID or NUC LIST command for a non-cluster database.

**Action**            No action is required for this informational message.

**REV00414      Duplicate field names not allowed**

**Explanation**    Two or more fields with the same name were entered on the ER screen. This is not allowed.

**Action**            Remove the duplicate fields.

**REV00415      Detail printer not available**

**Explanation**    A request to start a detail report failed because there was no detail printer available.

**Action**            Delete another detail report first or provide more printers in the startup JCL. Then try again.

**REV00416      Invalid data in rules value**

**Explanation**    An invalid character was entered into a processing rules value.

**Action**            Remove the invalid character from the rules value and try again.

**REV00417      Pulse interval must not be greater than 1440**

**Explanation**    The pulse interval was incorrectly specified for a Pulse report.

**Action**            Specify a value between 1 and 1440 and try again.

**REV00418      BUFFPOOL is not delivered in source form**

**Explanation**    An attempt to edit the display program BUFFPOOL failed because it is not delivered as source.

**Action**            No action is required for this informational message.

**REV00419      List size exceeded**

**Explanation**    The maximum list size of 10 has been exceeded in a processing rule.

**Action**            Limit the list size to 10 and try again.

**REV00420    Unable to obtain SVC list**

**Explanation**    An AA command was issued, but the list of SVCs cannot be accessed.

**Action**            Make certain that ADATMZ exists and is accessible from the current Adabas Review hub or database. Then try again.

**REV00421    There are no targets for this SVC**

**Explanation**    After an AA command, an SVC was selected, but there are not targets available for that SVC.

**Action**            No action is required for this informational message.

**REV00422    Only order fields are allowed for detailed reports**

**Explanation**    SUM, MIN, MAX, AVG, or ROUND were selected on the Edit Reports screen, but the report is a detailed report. ORDER is the only valid entry for a detailed report.

**Action**            Remove the invalid entries and try again.

**REV00423    Report type changed -- defaults were reset**

**Explanation**    While editing a report, the detail/summary report type was changed. Each report type requires its own set of default report options. The default report options for the new report type have now been loaded.

**Action**            No action is required for this informational message. Press PF2 to make any necessary changes to the report options.

**REV00424    Unable to retrieve data from target *nnnnn***

**Explanation**    For reasons unknown to Adabas Review, the requested target was unable to supply AA information.

**Action**            No action is required for this informational message.

**REV00425    Parameter input is missing or invalid**

**Explanation**    The expected parameter input was either missing or has invalid data.

**Action**            Correct the input data and try again.

**REV00426**      **Value for *keyword* is missing or invalid.**

**Explanation**      The parameter input for a keyword was either missing or has invalid data.

**Action**              Correct the keyword input and try again.

**REV00427**      **{TARGET|DBID|FILE} is not available**

**Explanation**      The parameter input for a SET command keyword refers to an unavailable destination.

**Action**              Correct the keyword data or make sure the destination is available.

**REV00428**      **{TARGET ID|DBID|FILE} has been set to *nnnnn***

**Explanation**      A SET command changed the target ID, database ID, or file successfully.

**Action**              No action is required for this informational message.

**REV00429**      **SET program has terminated with errors**

**Explanation**      The SET program encountered errors. The error will have been more clearly identified in a previous message.

**Action**              Correct the error and try again.

**REV00430**      **More than 256 target definitions on file**

**Explanation**      The maximum number of target definitions has been exceeded.

**Action**              Limit the number of targets to 256.

**REV00431**      **Cannot save report due to error**

**Explanation**      An attempt to save a report was unsuccessful because there was an error in the report definition.

**Action**              Correct the report definition and try again.

**REV00432**      **There are no REVIEW hubs running on SVC *nnn***

**Explanation**      The AH (Available Review Hubs) command was entered but there are no hubs running in the current SVC to display.

**Action**              No action is required for this informational message.

**REV00433    ADATMZ cannot be loaded**

**Explanation**    Upon initialization, SYSREVDDB calls a program named ADATMZ. This program was not available.

**Action**            Make certain ADATMZ is installed and available to SYSREVDDB. If the problem continues, contact your Software AG technical support representative.

**REV00434    ADATMZ version is too low**

**Explanation**    Upon initialization, SYSREVDDB calls a program named ADATMZ. The version of ADATMZ that was loaded is too low.

**Action**            Install the current version of ADATMZ. Contact your Software AG technical support representative for assistance.

**REV00435    Buffer Pool reports cannot have DBID=ALL**

**Explanation**    A value of "ALL" was specified as the DBID to monitor while attempting to start a report. Buffer Pool reports must only collect data from a single database, specifying "ALL" for them is not allowed. The report will not be started.

**Action**            Specify a numeric DBID for the Buffer Pool report.

**REV00436    Invalid field for client report**

**Explanation**    A reporting field was referenced in a client report that was not valid for client reports. Client reports have a restricted set of available fields. A complete list of these fields is provided in ????

**Action**            Specify a valid field name.

**REV00437    The maximum number of fields has been selected**

**Explanation**    While selecting fields for a report using the online field selection screens, the maximum allowable number of fields you can select has been reached. All fields selected beyond the maximum are ignored.

**Action**            Specify fewer fields, ensuring that only the most important fields are selected.

**REV00438 Invalid field for a database report**

**Explanation** A client reporting field was referenced in a database report. This field is only permitted in a client report.

**Action** Specify a valid field name.

**REV00439 Warning: A client report has been started.  
If client monitoring is not turned on,  
no client monitoring will be collected.  
Press ENTER to exit**

**Explanation** This message appears in a pop-up box whenever a client report is started. It warns you that if client monitoring has not been started, no client monitoring data will be collected.

**Action** No action is required for this informational message. Press the ENTER key to remove the pop-up box containing the message.
