

OPENRQ : Open Command Required

Parameter	Specify . . .	Possible Values	Default
OPENRQ	whether an open command is required.	YES NO	YES

This parameter may be used to indicate whether an open (OP) command must be issued as the first command of a user session.

Value	Meaning
YES	The default setting. Any user attempting to issue commands to Adabas without previously issuing an OP command receives a response code.
NO	Users are not required to issue an OP as the first command of the session.

Example:

The first session command issued by users does not have to be an OP command.

```
ADARUN PROG=ADANUC,OPENRQ=NO
```
