Maintain TCP/IP URLs

Note:

This function is available only for Adabas version 7 or above databases.

Selecting "Maintain TCP/IP URL" (option "T") from the Session Monitoring menu invokes the Display/Maintain URL screen:

```
 14:33:42          *****  A D A B A S   BASIC  SERVICES  *****         2005-11-14
  DBID 105                  - Display/Maintain URL  -                    PACTC02

  Mark entries with 'O' to Open or 'C' to Close a URL:

                M         URL            Status     Message
                -    --------------------  -------     -------
                _    HPS://TCPIPMVS:1962_  Closed
                _    HPS://TCPIPMVS:1963_  Open
                _    HPS://TCPIPMVS:1964_  Open
                _    HPS://TCPIPMVS:1965_  Open

                _    _____

  Command ===>
  PF1----- PF2------ PF3------ PF4------ PF6----- PF7----- PF8----- PF12-----
  Help               Exit      Refr      --        -        +       Menu
```

The screen displays a list of all defined URLs and their current status: open or closed.

You may change the status by entering "O" to open or "C" to close in the "M" column next to the URL entry.

You may define a new URL and open it using the blank line provided at the end of the URL list.

Once you have made your changes, press PF4 (Refr) to refresh the list.
