

TCP/IP Port Number Reference

The following table lists the TCP/IP port numbers used by the Event Replicator Target Adapter. You should consider avoiding the use of these TCP/IP port numbers for other applications.

Port Number	Use
8005	Tomcat shutdown port used for listening for a shutdown command.
8085	Tomcat listening port used for receiving commands and data.
8086	Internal management port <i>reserved for use by Software AG</i> only.
