

Changing to a Different Display Program

If desired, you may use a display program that is different from the one that was generated for the report by Adabas Review.

You may change the display program from the Report Definitions screen (LR function).

To change display programs

1. Enter the command CP on the selection line preceding the report name.

The cursor moves to the display program name.

2. Type the name of the new display program over the existing name and press ENTER.

A message appears, indicating that the display program has been changed.
