Expanding the List of History Reports

If the list of history reports (LH function) shows a report name as having more than one report, it means that the report has collected data on more than one occasion. Data has been stored on the history file each time the report was active.

To view information about each time a report has collected data

1. Enter the command EX on the selection line preceding the report name.

The Expanded History List screen that appears is similar to the one shown below:

14:42:14	A D A B A S – R E V I E W Adabas History Reports	2003-07-07 HUB=00221
Sel Report Name	Start	Stop
Command:	05-27-2002 13:30:11 05-27-2002 13:46:29 05-27-2002 14:02:58 05-27-2002 14:18:42	
	PF4PF5PF6PF7PF8PF9	9PF10PF11PF12
Help Exit	+	Menu

Note:

A start time of CMPRSSED indicates that the report occurrence is the result of the compress history (CH) command.
