Listing History Reports

The List History Reports (LH) function lists reports that have written history data to the Adabas Review repository, and provides commands to view history data, download it to a personal computer, submit it for hard copy printing, and purge it. In addition, you may edit the report definition and its corresponding display program.

▶ **To access the List History Reports function**

1. Enter the code LH on the command line.

   The Adabas History Reports screen is displayed:

```
 14:22:33                A D A B A S  -  R E V I E W                2003-07-07
                          Adabas History Reports                     HUB=00221

   Sel     Report Name                  Recs   Reports       Date Range
 +-----------------------------------------------------------------------------+
 | __    A DETAIL HIST                   222     1     07-23-2002 -07-23-2002  |
 | __    COMMANDS HISTORY                 89     4     07-27-2002 -07-27-2002  |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 | __                                                                          |
 +-----------------------------------------------------------------------------+

 Command: _____
 Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
       Help        Exit                              +                     Menu
```

An explanation of the Adabas History Reports screen is provided in the following table:

Heading	Explanation
Sel	Selection line. Commands are entered on the selection line preceding the report name. For a list of available commands, enter a "?" on the selection line.
Report Name	Name of the report.
Recs	Records. Indicates the number of records written to the Adabas Review repository by this report.
Reports	Indicates the number of times that history data was written for the report.
Date Range	Starting and ending dates in which the report was run. If the "Reports" column indicates more than one occurrence, the dates are inclusive.

PF8 has been provided as a scroll key. If more than one screen of report names exists, PF8 or (+) scrolls the list forward.

▶ **To issue a command from the Adabas History Reports screen**

1. Enter the command on the selection line preceding the report name.

   You may use the following commands:

Cmd	Action
CH	Compress history report
DD	Display report information
DL	Download history data (from expanded list only)
EP	Edit display program
ER	Edit report definition
EX	Expand history list (from summary screen only)
HC	Print history data (hard copy)
PH	Purge history data (from expanded list only)
VW	View history data
