

Installation Changes

This section provides an overview of the installation changes for Adabas Fastpath Version 8.1.

- Distribution of Online Services Application SYSAFP
 - Use of Unmodified ADALNK
-

Distribution of Online Services Application SYSAFP

The Adabas Fastpath Online Services application, SYSAFP, for Adabas Fastpath Version 8.1 is distributed in two forms:

- a demo version distributed with Adabas Version 7.4 or above, and
- a fully operable version distributed with Adabas Fastpath Version 8.1

In previous versions of Adabas Fastpath, there was a requirement to first install the demo version prior to installing the fully operable version. This is no longer the case.

A fully operable SYSAFP application will be available immediately on installing the Natural INPL object supplied on the Adabas Fastpath version 8.1 release tape.

Note:

If you install the demo version distributed on the Adabas release tape after installing the fully operable version, then you must reapply the fully operable version from the Adabas Fastpath release tape along with any subsequently applied Adabas Fastpath INPL updates.

Use of Unmodified ADALNK

As in previous releases, there is a requirement to use an unmodified ADALNK in certain areas. With Version 8.1 this has been reduced to unmodified ADALNK being needed to run standalone Adabas utility jobs only.
