

Entire Net-Work Installation

This document explains how to install Entire Net-Work on supported mainframe platforms.

The Entire Net-Work Installation document is organized as follows:

	<i>Installation Overview</i>	Contains general information that applies to all Entire Net-Work installations.
	<i>z/OS Environments</i>	Provides information about installing and running Entire Net-Work in the z/OS operating system environment.

Notation *vrs* or *vr*: When used in this documentation, the notation *vrs* or *vr* stands for the relevant version, release, and system maintenance level numbers. For further information on product versions, see *version* in the *Glossary*.
