

Reviewing Node Statistics

▶ To review general node statistics:

- Select the managed node from the list of Entire Net-Work managed nodes.

The statistics for the node appear in the detail-view frame.

Entire Net-Work Demo Interface

	Description
Version	V590
Operating System	OS/390

This beta test version of Entire Net-Work 7 contains a limited functionality mainframe SMH agent component that will not be included in the final production version. This has been included to allow the customer to see the component working and to be able to give Software AG feedback.

- Operator command
- Console Log
- Delete Node from SMH
- Help
- Refresh

These statistics are described in the following table.

Statistic	Description
Version	The version of Entire Net-Work installed on the node.
Operating System	The operating system used on the host machine.
