Software AG Licensing Messages

The messages in this document may be produced by Software AG mainframe license processing or when using the license utility, LICUTIL.

Overview of Messages

MLC1001	MLC1002	MLC1003	MLC1004	MLC1005	MLC2001	MLC2002
MLC2003	MLC2004	MLC2005	MLC2006	MLC2007	MLC2008	MLC9001
MLC9002	MLC9003	MLC9004	MLC9005	MLC9006	MLC9009	

MLC1001 CPU-ID *cpuid* is not defined in your product license

Explanation The CPU ID listed in the message (*cpuid*) is not defined in your product license. Either

your license file is invalid or you have attempted to run the Software AG mainframe

product on a machine for which it is not licensed.

Action Install and run the Software AG product on the machine for which it is licensed. If the

problem persists, contact your Software AG sales representative for assistance.

MLC1002 LPAR name *lparname* is not defined in your product license

Explanation The LPAR name listed in the message (*lparname*) is not defined in your product

license. Either your license file is invalid or you have attempted to run the Software AG

mainframe product on a machine for which it is not licensed.

Action Install and run the Software AG product on the machine for which it is licensed. If the

problem persists, contact your Software AG sales representative for assistance.

MLC1003 Machine capacity *value* higher than MSUs in your product license

Explanation The machine capacity (*value*) of the machine on which you have attempted to install

and run the Software AG mainframe product exceeds the capacity allowed in your product license. Either your license file is invalid or you have attempted to run the

Software AG mainframe product on a machine for which it is not licensed.

Action Contact your Software AG sales representative for assistance.

MLC1004 The product license will expire on timestamp

Explanation This warning message provides the date and time (*timestamp*) when the license will

expire for this Software AG mainframe product.

Action No action is required for this warning message. However, you should contact your

Software AG sales representative to obtain an updated license soon.

MLC1005 We assume CPU-ID cpuid as your DR or DR testing environment

Explanation The CPU ID listed in the message (*cpuid*) is not defined in your product license.

Therefore we assume that you are running in a disaster recovery environment.

Action If you are running in a disaster recovery environment, no action is required for this

warning message. If you are not running in a disaster recovery environment, contact

your Software AG sales representative to obtain an updated license.

MLC2001 The product license is invalid

Explanation Your product license is invalid.

Action Contact your Software AG sales representative for assistance.

MLC2002 The product license key is invalid

Explanation The license file for the Software AG mainframe product is invalid.

Action Verify that the license file was transferred correctly to the mainframe host and that it is

still in ASCII format. If the problem persists, contact your Software AG sales

representative for assistance.

MLC2003 The product license is not forvalue

Explanation The license file for the Software AG mainframe product is not for the operating system

(OS), product code, or product version listed in the message (value).

Action Use the correct license file. If the problem persists, contact your Software AG sales

representative for assistance.

MLC2004 The product license has expired on timestamp

Explanation The product license has expired. The date and time it expired is given in the message

(timestamp)

Action Contact your Software AG sales representative for assistance.

MLC2005 Tag missing in product license: tagname

Explanation The tag with the name listed in the message (tagname) is missing in your product

license.

Action Contact your Software AG sales representative for assistance.

MLC2006 Invalid tag value in product license: tagname

Explanation The value of the tag with the name listed in the message (tagname) is invalid in your

product license.

Action Contact your Software AG sales representative for assistance.

MLC2007 Current CPU-ID not found for product license check

Explanation The CPU ID of the CPU on which the product license check was run is not found in the

license file.

Action Contact your Software AG sales representative for assistance.

MLC2008 The number of MSU values in the product license is incorrect

Explanation The machine capacity covered by the product license is incorrect.

Action Contact your Software AG sales representative for assistance.

MLC9001 License exceeds maximum size of 8000

Explanation Your license file is too large.

Action Contact your Software AG sales representative for assistance.

MLC9002 Error opening license file input

Explanation An error occurred during an attempt to open the license file input.

Action Investigate the cause of the error, paying special attention to the corresponding error

messages produced by the operating system. Contact your Software AG sales or support

representative for assistance.

MLC9003 Error reading license file input

Explanation An error occurred during an attempt to read the license file input.

Action Investigate the cause of the error, paying special attention to the corresponding error

messages produced by the operating system. Contact your Software AG sales or support

representative for assistance.

MLC9004 Error opening license file assembler output

Explanation An error occurred during an attempt to open the license file assembler output.

Action Investigate the cause of the error, paying special attention to the corresponding error

messages produced by the operating system. Contact your Software AG sales or support

representative for assistance.

MLC9005 Error writing license file assembler output

Explanation An error occurred during an attempt to write the license file assembler output.

Action Investigate the cause of the error, paying special attention to the corresponding error

messages produced by the operating system. Contact your Software AG sales or support

representative for assistance.

MLC9006 License converted to assembler output records written to output file

Explanation The license file was successfully converted to an assembler source module. Output

records were written to the output file.

Action No action is required for this informational message.

MLC9009 DMS Error

Explanation A DMS error occurred (only in BS2000/OSD environments).

Action Investigate the cause of the BS2000/OSD DMS error. If you need assistance, contact

your Software AG support.representative.
