

# Conventions

Data set names starting with DD are referred to throughout the Adabas documentation with a slash separating the DD from the remainder of the data set name to accommodate VSE data set names that do not contain the DD prefix. The slash is not part of the data set name.

Notation *vrs*, *vr*, or *v*: When used in this documentation, the notation *vrs* or *vr* stands for the relevant version of a product. For further information on product versions, see *version* in the *Glossary*.
