NOBATCH: Set Print Width to 80 Characters Per Line

ADAICK   NOBATCH   [NOUSERABEND]

The printout width is set to 80 characters per line. See the BATCH function for information about resetting the printout width.

Optional Parameter

NOUSERABEND: Termination without Abend

When an error is encountered while the function is running, the utility prints an error message and terminates with user abend 34 (with a dump) or user abend 35 (without a dump).

If NOUSERABEND is specified, the utility will *not* abend after printing the error message. Instead, the message "utility TERMINATED DUE TO ERROR CONDITION" is displayed and the utility terminates with condition code 20.
