

Introduction

This documentation provides you with all information related to error situations in the ADL environment.

The installation of the ADL system is described in the ADL Installation documentation . The conversion of DL/I data bases is described in the ADL Conversion documentation. Finally, the installation and operation of the CALLDLI and Consistency Interfaces is covered by the ADL Interfaces documentation .

In addition to a list of error messages issued by ADL, the documentation provides information on the general error handling procedures of ADL and in particular the error handling of the CALLDLI and the Consistency Interfaces. The section `Problem Analysis` is intended to help you to cope with error situations.

For your convenience, a glossary of terms used in the ADL documentation is included.

This chapter covers the following topics:

- Other documentations You May Need
 - Documentation Related to non-SAG Products
-

Other documentations You May Need

The following Software AG publications may be useful when installing and operating the ADL Interface:

- *Adabas Utilities* documentation
- *Adabas Operations* documentation
- *Adabas Messages and Codes* documentation
- *Adabas Reference Data* and *Adabas DBA Reference Data* documentation.

For a complete list of Software AG documentation, refer to Software AG's Empower web site. If you do not have an Empower user ID and password yet, you will find instructions for registering on this site (free for customers with maintenance contracts).

Documentation Related to non-SAG Products

The documentation mentioned below might be of interest and helpful for the installation and operation of ADL.

For z/OS users:

- IMS/VS Application Programming
- IMS/VS Application Programming for CICS/VS Users

- IMS/VS Utilities Reference documentation
- CICS TS Installation Guide
- CICS TS Operations and Utilities Guide
- CICS TS Resource Definition Guide

For z/VSE users:

- DL/I DOS/VS Guide for New Users
- DL/I DOS/VS Application Programming: CALL and RQDLI Interface
- DL/I DOS/VS Application Programming: High Level Programming Interface
- DL/I DOS/VS Utilities and Guide for the System Programmer
- DL/I DOS/VS Resource Definition and Utilities
- CICS TS Installation Guide
- CICS TS Operations and Utilities Guide
- CICS TS Resource Definition Guide
