

The Entire Net-Work Administration Area

▶ To access the Entire Net-Work administration area of the System Management Hub (SMH):

Make sure you have started and logged into the System Management Hub.

1. Select the name of the managed host on which Entire Net-Work is installed.
2. Expand the tree-view frame for the managed host by clicking on the plus sign (+) to the left of its name.
3. Select "Entire Net-Work" in the tree-view under the managed host.

The Entire Net-Work administration area of the System Management Hub becomes available to you.

The Entire Net-Work administration area lists the nodes that are managed by Entire Net-Work. You can review this area by selecting Entire Net-Work from the list of managed hosts in the System Management Hub.

The screenshot shows the System Management Hub interface. On the left is a tree view under 'Managed Hosts' with the following items: 'host.address.1', 'Administrators', 'Directory Server', 'Entire Net-Work' (highlighted in blue), and 'System Management Hub'. On the right is a table with two columns: 'Managed node' and 'Description'. The table contains two rows: 'V7 NODE1' with description 'Entire Net-Work Version 7', and 'V5 NODE2' with description 'Entire Net-Work Version 581'. Below the table is a command frame with three buttons: 'Add Managed Net-Work Node', 'Help', and 'Refresh'.

	Managed node	Description
V7	NODE1	Entire Net-Work Version 7
V5	NODE2	Entire Net-Work Version 581

The following buttons are available in the command frame of the Entire Net-Work administration area:

Note:

You must have "Entire Net-Work" selected in the tree-view frame to see these buttons.

Button	Use this button to:
Add Managed Net-Work Node	Add a new node to be managed by Entire Net-Work.
Help	Link to help for your use of SMH as it pertains to the Entire Net-Work administration area.
Refresh	Refresh the screen.
