

Performing Software AG Directory Server Administration

This chapter describes the administration tasks you can perform for the Directory Server using the System Management Hub.

Note:

Within SMH, two types of Directory Server administration are listed: Flat Files and Directory Servers. Software AG products do not use the **Flat File** maintenance option of the Directory Server administration. All administration tasks are performed using the **Directory Servers** maintenance option. For this reason, only the **Directory Servers** maintenance options are described in this chapter.

This chapter covers the following topics:

 ../graphics/gr_b_sm.gif	<i>The Directory Server Administration Area</i>
 ../graphics/gr_b_sm.gif	<i>Refreshing SMH Displays</i>
 ../graphics/gr_b_sm.gif	<i>Maintaining Directory Server Links</i>
 ../graphics/gr_b_sm.gif	<i>Maintaining Partitions</i>
 ../graphics/gr_b_sm.gif	<i>Maintaining Targets</i>
 ../graphics/gr_b_sm.gif	<i>Changing Hosts</i>
