

# The Entire Net-Work Administration Area

► To access the Entire Net-Work administration area of the System Management Hub (SMH):

Make sure you have started and logged into the System Management Hub.

1. Select the name of the managed host on which Entire Net-Work is installed.
2. Expand the tree-view frame for the managed host by clicking on the plus sign (+) to the left of its name.
3. Select "Entire Net-Work" in the tree-view under the managed host.

The Entire Net-Work administration area of the System Management Hub becomes available to you.

The Entire Net-Work administration area lists the nodes that are managed by Entire Net-Work. You can review this area by selecting Entire Net-Work from the list of managed hosts in the System Management Hub.

The screenshot shows the System Management Hub interface. On the left, a tree-view displays the following structure:

- Managed Hosts
  - host.address.1
    - Administrators
    - Directory Server
    - Entire Net-Work** (highlighted)
    - System Management Hub

On the right, the Entire Net-Work administration area is displayed as a table:

	Managed node ⇅	Description ⇅
V7	NODE1	Entire Net-Work Version 7
V5	NODE2	Entire Net-Work Version 581

Below the table, a command frame contains the following buttons:

- Add Managed Net-Work Node
- Help
- Refresh

The following buttons are available in the command frame of the Entire Net-Work administration area:

**Note:**

You must have "Entire Net-Work" selected in the tree-view frame to see these buttons.

<b>Button</b>	<b>Use this button to:</b>
<b>Add Managed Net-Work Node</b>	Add a new node to be managed by Entire Net-Work.
<b>Help</b>	Link to help for your use of SMH as it pertains to the Entire Net-Work administration area.
<b>Refresh</b>	Refresh the screen.
