

# Zaps Data Set

The distributed source library contains member ZAPOPT, which lists zaps that may be applied for the activation or deactivation of various features of Adabas Review. A ZAPOPT member will be included with each SP level distribution.

**Important:**

Be sure that you apply all supplied Adabas Review maintenance and concatenate Adabas Review patch-level libraries (L00n), as they are delivered to you. This will ensure that your Adabas Review code remains up-to-date, supporting all Adabas Review features as they are enhanced and maintained. The latest zaps for this product are available in the Knowledge Center of the Software AG Empower web site: <https://empower.softwareag.com>.
