Listing Managed Nodes

To list the nodes managed by Entire Net-Work:

Make sure you have accessed the System Management Hub.

• Select Entire Net-Work from the list of managed hosts.

The lists of managed nodes appears in the detail-view frame and are listed under the expanded Entire Net-Work host name.

📥 Managed Hosts		Managed node 😂	Description \Leftrightarrow
🖃 🗐 host.address.1	V7	NODE1	Entire Net-Work Version 7
🗉 🙀 Administrators	V5	NODE2	Entire Net-Work Version 5
🗉 🥯 Directory Server			
🗆 🗗 Entire Net-Work			
■ V5 NODE2			
🗉 券 System Management Hub			
Add Managed Net-Work Node			
Help			
Refresh			

The status of each node is indicated by the icon to the left of the managed node name.

Icon	Description
?	The defined node cannot by reached by SMH.
V5	The Entire Net-Work 5 node is active and available for management by SMH.
V7	The Entire Net-Work 7 node is active and available for management by SMH.
