Entire Net-Work Installation

This document explains how to install Entire Net-Work on supported mainframe platforms.

The Entire Net-Work Installation document is organized as follows:

•	Installation Overview	Contains general information that applies to all Entire Net-Work installations.
•	Software AG Mainframe Product Licensing	Describes Software AG's mainframe product license support and processing.
•	z/OS Environments	Provides information about installing and running Entire Net-Work in the z/OS operating system environment.
•	z/VSE Environments	Provides information about installing and running Entire Net-Work in the z/VSE operating system environment.
•	BS2000/OSD Environments	Provides information about installing and running Entire Net-Work in the BS2000/OSD operating system environment.
•	Zap Naming Convention	Describes the naming convention used for Entire Net-Work zaps.

For information regarding Software AG product compatibility with IBM platforms and any IBM requirements for Software AG products, please review the *Product Compatibility for IBM Platforms* web page.

Notation *vrs* or *vr*: When used in this documentation, the notation *vrs* or *vr* stands for the relevant version, release, and system maintenance level numbers. For further information on product versions, see *version* in the *Glossary*.
