LNKRVX* Adabas Review Link Routine Messages

Overview of Messages

LNKRVX090 | LNKRVX091 | LNKRVX092 | LNKRVX093 | LNKRVX094 | LNKRVX095 | LNKRVX096 | LNKRVX097

LNKRVX090	**Enhanced Review processing terminated**
Explanation	This message is issued after an error is detected when the link routine attempts to initialize the environment for Review exits. The reason for the failure is provided by one or more previously issued message or messages.
Action	Review other previously issued messages to determine the cause of the error.

LNKRVX091	**GETMAIN failed for Review exit work area**
Explanation	The storage for the REVEXIT1 (REVEXITB) work area was not available. No Adabas Review processing is possible for this task or job step.
Action	Contact your Software AG technical support representative for assistance.

LNKRVX092	**GETMAIN failed for REVEXIT2 work area**
Explanation	The storage required to support REVEXIT2 client monitoring is not available. Client monitoring will not be possible but standard REVEXIT1 (REVEXITB) processing may be possible.
Action	Contact your Software AG technical support representative for assistance.

LNKRVX093	**Primary Revexit work area header invalid**
Explanation	The header for the primary Adabas Review work area appears to be invalid. Adabas Review processing cannot continue.
Action	Contact your Software AG technical support representative for assistance.

LNKRVX094	**REVEXIT2 work area invalid**
Explanation	The work area for REVEXIT2 (client monitoring) appears to be invalid or corrupted. Adabas Review client monitoring cannot continue.
Action	Contact your Software AG technical support representative for assistance.

LNKRVX095   **Handshake with Review Hub:** *hub-id* **failed RSP:** *rc* **Sub:** *sc*

Explanation   The handshake to establish communication with the Adabas Review hub listed in the message (*hub-id*) failed with the Adabas response code (*rc*) and the Adabas subcode (*sc*) given in the message. Adabas Review client monitoring cannot continue for this task or job step.

Action   Evaluate the returned Adabas response code and subcode to determine the action to take to correct the issue. For example, if the Adabas response code is 148, ensure that the specified Adabas Review hub is up and running.

LNKRVX096   **Review monitoring is {ON|OFF}**

Explanation   This message indicates the new or current state of Adabas Review client monitoring. It is issued in response to a request from SYSREVDB to activate or deactivate client monitoring for the Adabas link routine.

Action   No action is required for this informational message.

LNKRVX097   **PC number zero after V4 call, Transport not active**

Explanation   The handshake to establish communications between the link routine, REVEXIT2 and the Adabas Review hub has failed because the Adabas Review Trans-port software is not running.

Action   Restart the Adabas Review Trans-port software.
