REV00MNF Message *msg-id* not found in *logon-id*

Explanation A message inquiry was made for a message number that is not known to Adabas Review. This will happen if an invalid message number is entered.

Action If the message number is for an Adabas Review message, contact your Software AG technical support representative.

REV00001 Welcome to Adabas Review V *v.r.s* running under *tp-monitor*

Explanation This message welcomes users to Adabas Review and indicates the environment under which they are running.

v.r.s	the version, revision, and SP level.
tp-monitor	the active TP monitor.

Action This message is for information only.

REV00002 Review command must begin with subsystem code

Explanation An invalid command was entered from the Adabas Review main menu. All commands from the main menu must begin with a subsystem code as shown on the screen.

Action Enter a valid command.

REV00003 REVTAB not found

Explanation The Adabas Review program *REVTAB* is not available to CICS or is not permanently resident.

Action Make sure *REVTAB* is available and permanently resident.

REV00004 Enter Review command

Explanation Adabas Review is waiting for terminal input.

Action Press a valid PF key or enter an Adabas Review command.

REV00005 Invalid command

Explanation An invalid command was entered into the Adabas Review command line.

Action Press a valid PF key or enter a valid Adabas Review command.

REV00006 Press 'Enter' to continue initialization process

Explanation During Adabas Review initialization a series of messages are displayed. Adabas Review will pause whenever a page is full or on the last page.

Action Press ENTER.

REV00008 No online system of Review is available

Explanation Adabas Review has determined that there are no online systems available to the user. There are two possible causes:

1. the installation of Adabas Review has not been fully completed.
2. Adabas Review is installed, but your profile prohibits you from accessing the available systems.

Action Contact your Adabas Review administrator.

REV00011 Interval statistics profile has been created

Explanation During Adabas Review initialization, the interval statistics profile record was created.

Action This message is for information only.

REV00012 Report has been saved

Explanation The request to save a report definition to the Adabas Review repository has completed successfully.

Action This message is for information only.

REV00013 Now viewing current data

Explanation You are now viewing current data as opposed to historical data.

Action This message is for information only.

REV00014 *user-id* is not authorized to use Review

Explanation Either you have not been defined to Adabas Review, or you are not authorized to use Adabas Review.

Action Contact your Adabas Review administrator.

REV00015 Report name is required

Explanation An attempt was made to edit/copy a report without a name.

Action Enter a name in the report name field.

REV00001 At least one item must be selected

Explanation An attempt was made to add a report without selecting any items to be used as report criteria.

Action Select one or more fields to be used as criteria by entering a number in its ORDER field.

REV00020 Order number must not exceed 20 (max number of items)

Explanation A number greater than 20 was entered into one of the ORDER fields.

Action Enter a number between 1 and 20.

REV00021 Order number must be unique

Explanation Duplicate ORDER numbers have been detected.

Action Enter a unique number in each ACCT ORDER to be included in the report.

REV00025 Now viewing historical data

Explanation You are now viewing historical data as opposed to current data.

Action This message is for information only.

REV00026 Report was not saved

Explanation The request to save a report was not successful. This is usually caused by responding NO when asked if you want to replace the report that was previously saved under the same name.

Action This message is for information only.

REV0002 There are no detailed records for this report

Explanation A *detailed response time* report was requested but there are no detail records for the selected report.

Action This message is for information only.

REV00028 Report was not refreshed

Explanation This indicates that a request to restart a report was not successful.

Action This message is for information only.

REV00029 Invalid reply

Explanation An invalid reply was given to an Adabas Review prompt.

Action Enter a valid reply.

REV00030 Report has been purged

Explanation This confirms that the purge report request was successful.

Action This message is for information only.

REV00032 Report not found

Explanation An attempt to access a report has failed because the report is not active.

Action This message is for information only.

REV00033 Unknown return code from purge - RC= *ret-code*

Explanation An unknown return code was returned from the purge reports program due to an internal error.

Action If the problem reoccurs, contact your Software AG technical support representative.

REV00035 This is the oldest historical snapshot

Explanation This is the oldest historical snapshot; the NEXT command cannot be entered.

Action This message is for information only.

REV00036 Do not enter x and a direct command

Explanation A reply was entered into an Adabas Review prompt field and a direct command was entered simultaneously.

Action Either answer the Adabas Review prompt or enter a direct command, but not both.

REV00037 Invalid response - only valid response is xxx

Explanation An invalid response was detected and Adabas Review is prompting the user with the correct response.

Action Enter a valid response.

REV00038 Report status has been changed

Explanation This confirms that a request to activate or deactivate a report was successful.

Action This message is for information only.

REV00040 Redisplay buffer full - Redisplay unavailable

Explanation The redisplay is unavailable because more than 5000 lines were displayed.

Action As a workaround, the report data can be printed via the HC command and other tools can be used to scroll through this output.

REV00043 You must reply 'Y' or 'N'

Explanation An invalid reply was given in response to an Adabas Review prompt that requires a reply of either yes ("Y") or no ("N").

Action Reply "Y" or "N".

REV00044 Value must be between 0 and 100

Explanation The value entered was not within the range 0 and 100.

Action Enter a value between 0 and 100.

REV00045 Do not mark blank lines

Explanation A selection was marked on a line that does not have a value or any data to select.

Action Mark a valid selection or enter an Adabas Review command.

REV00046 Do not mark deleted reports

Explanation A character was placed in the select field of a report that was just deleted.

Action Do not place a character in this field.

REV00047 Invalid character

Explanation An invalid character was entered into an Adabas Review field.

Action Enter a valid character.

REV00050 Non-zero return code from FREEMAIN

Explanation An unexpected return code has occurred while trying to free storage. The return code is also displayed.

Action If the problem recurs, contact your Software AG technical support representative.

REV00054 **Now creating sample report *report-name***

Explanation When Adabas Review is invoked online for the first time, it adds sample Adabas reports to its system file.

Action This message is for information only.

REV00055 **Select a historical snapshot**

Explanation Select a historical snapshot.

Action This message is for information only.

REV00057 **Use of function is prohibited**

Explanation An attempt was made to perform an Adabas Review function that is not permitted for the user.

Action Contact your Adabas Review administrator.

REV00058 **There are no saved reports to list**

Explanation A request to list report definitions was made but there are no definitions to list.

Action This message is for information only.

REV00059 **Operator command issued**

Explanation The operator command was issued to Com-plete.

Action This message is for information only.

REV00062 **No data has been accumulated for this report**

Explanation A request to display a report cannot be satisfied because the report has not yet accumulated any data.

Action Determine if the report criteria is correct and if so, try again later or else add a new report.

REV00064 Invalid function

Explanation An invalid function was entered.

Action Enter a valid function.

REV00065 DBID missing

Explanation DBID= was entered on the Adabas Review command line of the Adabas Communication Statistics display, but no corresponding DBID number was given.

Action Enter DBID=*nnn* where *nnn* is a valid DBID number.

REV00066 Invalid cursor position

Explanation The cursor was placed at an invalid location on a screen that senses the cursor position to perform a function.

Action Place the cursor at a valid position or enter an Adabas Review command.

REV00068 Invalid logical operator

Explanation An invalid logical operator was entered. Valid operators are:
=,;, <, >, EQ, NE, LT, GT, LE, GE

Action Enter a valid logical operator.

REV00072 Mark one line only

Explanation More than one line was marked to perform a report function. This is not allowed.

Action Mark only one line at a time.

REV00073 Invalid character in select column

Explanation A line has been marked with a character that has no assigned function.

Action Mark lines using valid characters.

REV00074 Invalid Transaction Summary option

Explanation An invalid option was entered into the Transaction Summary Option field in the Edit Report screen.

Valid options are NONE, SUM, and DET.

Action Enter a valid option.

REV00078 Report was not purged

Explanation The request to purge a started report was not performed.

Action This message is for information only.

REV00079 Invalid message prefix

Explanation An inquiry was made for a message number that has an invalid prefix. Message numbers must start with *REV*.

Action Enter the MSG command using a valid message number.

REV00080 Com-plete functions are not valid under CICS

Explanation A Com-plete performance monitor function was attempted. This is not valid under CICS.

Action This message is for information only.

REV00081 Review is not compatible with this version of Com-plete

Explanation A Com-plete performance monitor function was attempted on a version of Com-plete earlier than version 4.4.

Action Install the current version of Com-plete.

REV00082 Select a buffer pool or enter a Review command

Explanation The Adabas Review buffer pool function is waiting for terminal input.

Action Select a buffer pool by name or enter an Adabas Review command.

REV00083 Syntax error in scan command

Explanation A syntax error was detected while processing a scan command on the ET display.

Action This message is for information only.

REV00084 Invalid buffer pool name

Explanation The buffer pool selection entered cannot be identified.

Action Enter a valid buffer pool name or enter an Adabas Review command.

REV00085 Command not allowed in history mode

Explanation The command entered is not allowed in history mode.

Action Do not enter command.

REV00086 No ADAB control block found

Explanation The Adabas Communication Statistics function was invoked, but there has not been any database access since Com-plete was started. Therefore, there is no database information to display.

Action Try again later.

REV00087 *nn* Reports removed from AUTOSTART status

Explanation This confirms that the indicated report definitions have been changed from AUTOSTART to NON-AUTOSTART status.

Action This message is for information only.

REV00091 Invalid command code

Explanation An invalid code was entered for a command.

Action Enter a valid command code.

REV00092 Report has been started

Explanation This confirms that the request to start a report was successful.

Action This message is for information only.

REV00093 Syntax error(s) in report definition

Explanation The request to start an online report has failed because of syntax errors in the report definition.

Action Correct the report definition and start the report again.

REV00094 Adabas response code *rsp*

Explanation Adabas has responded with a non-zero response code.

Action Use the *Adabas Messages and Codes* documentation to determine the problem.

REV00095 Report was not started

Explanation The request to start a report was not successful.

Action This message is for information only.

REV00096 User profile is being held by another user

Explanation An attempt was made to access a user profile that is being updated by another user.

Action Edit the user profile again. Ensure that the changes made to profile do not affect the changes that you are making.

REV00097 User profile not specified

Explanation The purge user (PU) command was given without specifying a user profile.

Action When using the purge user (PU) command, specify the user profile you wish to purge. The format for the command is PU *uuuuuuu* where *uuuuuuu* is the user profile.

REV00098 User profile was not purged

Explanation A request was made to purge a user profile. When Adabas Review asked for a confirmation, the user decided not to purge the user profile.

Action This message is for information only.

REV00099 User profile was not found

Explanation An attempt was made to delete a user profile that was not found in the Adabas Review repository.

Action Check to make sure the user ID you specified is correct.

REV00100 User profile has been purged

Explanation This confirms that a request to purge a user profile was successful.

Action This message is for information only.

REV00101 New user profile

Explanation The profile that you are editing is new.

Action You may now customize the new user profile. To save this new profile, press PF5 or issue the SAVE command.

REV00102 User profile was not saved

Explanation A request was made to save the changes made to a user profile. When Adabas Review asked for a confirmation, the user decided not to save the changes.

Action This message is for information only.

REV00104 Return code *ret-code* received from *program-name*

Explanation An unexpected return code was received from one of Adabas Review's programs.

Action Record the error message and contact your Software AG technical support representative.

REV00105 User profile has been saved

Explanation The changes made to the user profile have been saved.

Action This message is for information only.

REV00106 No Review control block found

Explanation (CICS Only) This message appears when *REVTAB* has not been defined as a resident program.

Action Contact your Software AG technical support representative.

REV00108 Default user profile has been added

Explanation This message appears the first time Adabas Review is invoked after installation. A DEFAULT user profile is added to the Adabas Review repository, which allows all users to perform all functions of Adabas Review including the ability to maintain user profiles.

Action A logical procedure at this point would be to invoke the user profile system and add yourself as able to maintain user profiles. Then update the DEFAULT profile so that general users cannot maintain user profiles.

REV00111 No storage available to start report

Explanation A request to start a report has failed due to insufficient storage. This is probably because of other reports that are using most or all of the storage allocated to Adabas Review.

Action Purge one of the already existing reports or try again later.

REV00116 Statistics profile was not saved

Explanation The statistics profile was not saved.

Action This message is for information only.

REV00120 Users attached for test simulation

Explanation This confirms that users have been attached to simulate a load on Com-plete.

Action This message is for information only.

REV00121 Error *error-number* attaching users

Explanation An error has occurred while trying to attach users for load simulation.

Action If the problem reoccurs, contact your Software AG technical support representative.

REV00123 **Statistics profile has been saved**

Explanation The statistics profile has been saved.

Action This message is for information only.

REV00124 **TID number must be numeric**

Explanation A TID number was entered into the SA screen via the T= or TID= command but is was not numeric.

Action Enter a numeric TID number.

REV00125 **Report definition has been saved successfully**

Explanation This confirms that the request to save a report definition was successful.

Action This message is for information only.

REV00129 **Report definition not found**

Explanation An attempt was made to retrieve a report definition but no report definition by that name was found.

Action Determine the correct name or create a new definition.

REV00132 **Interval may not be greater than 1440 minutes**

Explanation The interval may not be greater than 1440 minutes.

Action This message is for information only.

REV00133 **Review is terminating**

Explanation A request was made to start, view, or list a report, but Adabas Review is in the process of terminating.

Action This message is for information only.

REV00134 Duplicate report name - report not started

Explanation An attempt to start an Adabas report has failed because a report with the same name is already active.

Action Purge the currently active report and retry or start a report with a different name.

REV00135 Review command not provided

Explanation An attempt was made to communicate with the Adabas Review exit but no Adabas Review command was provided.

Action Provide an Adabas Review command.

REV00137 Insufficient storage to issue Review command

Explanation The Adabas Review exit routine is not accepting communications due to insufficient storage.

Action Purge at least one of the started reports.

REV00138 Insufficient storage to start report

Explanation An attempt to start an Adabas Review report has failed due to insufficient storage.

Action Purge an active report and retry.

REV00139 Invalid SUMMARY, MAX or MIN field

Explanation An attempt to start an Adabas Review report has failed because fields were marked as Sum, Min, Max, or Avg, but these fields are only allowed to be Order fields.

Action Make the fields Order fields only.

REV00141 Format buffer error

Explanation A format buffer error has occurred while trying to communicate with the Adabas Review exit routine.

Action Contact your Software AG technical support representative.

REV00144 Display program not found

Explanation An attempt to view an active report has failed because the display program for this report cannot be found.

Action Generate a display program by resaving the report definition, if it is available, or change the display program name on the LS screen to a program name that is known to be acceptable for this report.

REV00145 Natural error: *error-number*

Explanation A Natural error condition occurred. The Natural error message number is displayed.

Action Reference the Natural online message utility for an explanation of the error.

REV00146 Report definition was not saved

Explanation The request to save a report definition was canceled by the user in response to an overlay warning.

Action This message is for information only.

REV00147 Too many fields - exceeds max linesize - save canceled

Explanation The request to save a report definition was canceled because the resulting generated display program would have exceeded the maximum allowable line size.

Action Reduce the number of fields and try again.

REV00148 DBID has been changed

Explanation This confirms that the request to change the target DBID was successful.

Action This message is for information only.

REV00149 There are no started reports

Explanation A request to list started reports was made but there are no started reports to list.

Action This message is for information only.

REV00150 Detailed reports cannot be viewed online

Explanation Only summary reports can be viewed online. Detailed reports are printed at Adabas termination time.

Action This message is for information only.

REV00151 Insufficient storage to reactivate report

Explanation An attempt was made to reactivate a report that was deactivated by Adabas Review due to insufficient storage. The report cannot be reactivated.

Action Use the refresh (RF) command to purge the existing data and start accumulating new information.

REV00152 Report has been refreshed

Explanation This confirms that a refresh (RF) command was successful.

Action This message is for information only.

REV00153 There are no history reports

Explanation A request to List History Reports was canceled because there are no history reports to list.

Action This message is for information only.

REV00155 DBID must be between 0 and 255.

Explanation An attempt was made to change the DBID number to less than 0 or greater than 255.

Action Enter a DBID number in the range of 0 to 255.

REV00156 Invalid AND/OR field

Explanation A value other than AND or OR was entered into the AND/OR field of the selection criteria on the Processing Rules screen.

Action Enter AND or OR.

REV00157 No field specified

Explanation No field name was specified for the entered criteria on the Edit Report screen.

Action Enter a field name.

REV00158 AND/OR field not followed by another condition

Explanation AND or OR was entered into the AND/OR field of the Processing Rules screen but no condition followed.

Action Either remove the AND/OR or enter another condition.

REV00159 AND/OR field missing

Explanation More than one condition was coded on the Processing Rules screen, but no AND/OR was coded for the previous condition.

Action Enter AND/OR on the previous condition

REV00160 OPERATOR field missing

Explanation The OPERATOR field has been left blank on a condition.

Action Fill in the OPERATOR field.

REV00161 VALUE field missing

Explanation The VALUE field has been left blank on a condition.

Action Fill in the VALUE field.

REV00162 Invalid OPERATOR field

Explanation An invalid operator was entered into the OPERATOR field of the Processing Rules screen.

Action Enter a valid operator.

REV00163 Invalid field name

Explanation An invalid field name was entered on the Edit Report screen.

Action Press PF11 for a list of valid field names.

REV00169 ORDER number too high

Explanation A number greater than 20 was entered into the ORDER field of the Edit Report screen. 20 is the highest number that can be entered.

Action Enter a number between 1 and 20.

REV00170 *field-name* is not a valid field for SUM, AVG, PCT or ROUND

Explanation A field was marked for SUM, AVG, PCT, or ROUND on the Edit Report screen, but the field marked is not a numeric field. Fields must have a numeric output to be eligible for SUM, AVG, PCT, or ROUND.

Action Place a number in the ORDER column, and remove any marks for SUM, AVG, PCT, or ROUND.

REV00171 SAVE/START canceled by operator

Explanation The request to save a report definition was canceled by the user in response to an overlay warning.

Action This message is for information only.

REV00175 Invalid value

Explanation An invalid value was entered as part of a logical condition on the Edit Report screen.

Action Enter a valid value.

REV00176 Internal storage error

Explanation An internal storage management error has occurred within the Adabas Review nucleus.

Action If the problem recurs, contact your Software AG technical support representative.

REV0017 ROUND is only valid on fields with an ORDER number

Explanation A rounding factor was specified for a field that does not also have an order number specified.

Action Enter a number in the ORDER field, or remove the rounding factor.

REV00179 You must enter ORDER, SUM, MIN, MAX, PCT or AVG

Explanation A field was entered on the Edit Report screen but no action was specified; i.e. ORDER, SUM, MIN, MAX, PCT, or AVG.

Action Enter a number in the ORDER field and/or an X in one or more of the SUM, MIN, MAX, PCT, or AVG fields

REV00180 Invalid data in ROUND column

Explanation The data entered into the round column of the Edit Report screen was not numeric.

Action Enter a number with or without a decimal into the round field.

REV00181 ADACALL must be an integer between 0 and 32,767

Explanation ADACALL specifies the maximum number of Adabas calls an application can make before the Com-plete / Adabas interface forces the application to be rolled out. This parameter is ignored if ADAROLL=NO is specified.

Action Enter a number between 0 and 32,767.

REV00182 ADALIMIT must be an integer between 0 and 32,767

Explanation ADALIMIT specifies the number of Adabas calls that may be made by an online transaction without any intervening terminal I/O. Programs that exceed this limit are canceled.

Action Enter a number between 0 and 32,767.

REV00183 ADAROLL must be 'ALWAYS', 'NEVER', or less than 30.99

Explanation ADAROLL specifies the amount of time Com-plete will wait for Adabas calls before rolling out the program making the call.

Action Enter ALWAYS, NEVER, or a number less than 30.99.

REV00184 ADACALL for DBID *dbid* has been changed to *yyyyy* by *user-id*

Explanation The ADACALL parameter for the specified database was changed to *yyyyy* through the facilities provided by the Adabas Communication Statistics function (Adabas Calls from Com-plete) in Adabas Review DC.

Action This message is for information only.

REV00185 ADALIMIT for DBID *dbid* has been changed to *yyyyy* by *user-id*

Explanation The ADALIMIT parameter for the specified database was changed to *yyyyy* through the facilities provided by the Adabas Communication Statistics function (Adabas Calls from Com-plete) in Adabas Review DC.

Action This message is for information only.

REV00187 Only 'Y' and 'N' are valid values

Explanation The letter "Y" (yes) and the letter "N" (no) are the only two valid values for this field.

Action Enter "Y" if you wish the APPLYMOD to be active; or enter "N" if you wish to deactivate the applymod.

REV00188 The ADABAS/COM-PLETE parameters have been updated

Explanation This message confirms that the Adabas / Com-plete parameters have been successfully updated.

Action This message is for information only.

REV00190 Invalid cursor placement for requested function

Explanation The cursor must be placed on a line that contains valid data.

Action Place cursor on a line with valid data.

REV00193 Too many *xxx* fields

Explanation *xxx* is ORDER, SUM, MIN, MAX, AVG, or ROUND. There were too many of the indicated fields to process. When all field names are combined, they will not fit into an 80-byte statement. The 80-byte statements are used internally by Adabas Review for report definition storage.

Action Reduce the number of fields by one until the message disappears.

REV00195 Invalid page number entered

Explanation A number was entered on the Adabas Review command line that was greater than the actual number of pages available.

Action Enter a valid page number.

REV00196 Roll buffer not allocated

Explanation The roll buffer is not allocated.

Action This message is for information only.

REV00197 Roll data sets not allocated

Explanation The roll data sets are not allocated.

Action This message is for information only.

REV00198 User not logged on

Explanation The user is not logged on.

Action This message is for information only.

REV00199 Invalid wrap option

Explanation An invalid wrap option was specified in the report definition. The option must be NONE, STD, or HIGH.

Action This message is for information only.

REV00200 Low water mark must be less than high water mark

Explanation The low water mark specified was higher than or equal to the high water mark.

Action Enter a number less than the high water mark.

REV00202 Review is not installed in database *dbid*

Explanation An attempt was made to either start a report or to list started reports against a database that either does not have Adabas Review installed as a user exit 4 or does not currently have LOGGING turned on.

Action Verify that Adabas Review is installed on the target DBID. If it is, ensure that ADARUN LOGGING=YES has been specified and that LOGGING has not been subsequently disabled from the operator console.

REV00203 Report hard copy has been queued

Explanation This confirms that a request to send report output to a hardcopy device completed successfully, and that the report is either now printing or has been placed on the queue to be printed.

Action This message is for information only.

REV00205 Invalid display program name

Explanation An attempt was made to change the display program name using the CP command of the List Reports screen, but the new name is blank or invalid.

Action Enter a valid program name.

REV00206 Display program name has been changed

Explanation This confirms that the request to change the display program name using the CP command of the List Report Definitions screen was successful.

Action This message is for information only.

REV00207 Report definition was purged by another user

Explanation The report definition selected is being purged by another user.

Action This message is for information only.

REV00209 Invalid character in report name

Explanation An invalid character such as a quotation mark or a period was used as part of the report name.

Action Remove the invalid character from the report name.

REV00210 Invalid start/stop date

Explanation A date range was entered for viewing a history report but the date(s) are not valid. This may mean that the starting date is greater than the ending date, or that invalid numeric data or an invalid date format has been entered.

Action Enter a valid date range in the form of *yyyy-mm-dd* or press ENTER to default to the maximum date range.

REV00211 History reports must be purged from the expanded list

Explanation An attempt was made to purge a history report from the LH screen. This is not a valid LH function. The list must be expanded using the EX command before history reports can be purged.

Action Enter EX in the SEL column next to the report to be purged. An expanded list will appear from which the Purge History Report (PH) function can be executed.

REV00212 Enter date range

Explanation This prompts you to enter a date range before viewing a history report. The maximum date range (all dates) is the default.

Action Enter a date range in the form of *yyyy-mm-dd*, or press ENTER to default to the maximum date range.

REV00214 Display program regeneration complete

Explanation The request to regenerate display programs has completed successfully.

Action This message is for information only.

REV00217 Review system file not available

Explanation Adabas Review attempted to read information from its system file but received an Adabas response code of 148 (ADARSP148).

Action Bring up the database that has the Adabas Review repository and make sure that the LFILE parameter has been specified correctly.

REV00218 Default system must be 'DB', 'DC', 'MM', or 'NM'

Explanation An invalid value was entered for default system. The valid system codes are:

DB	Database (Adabas Review)
DC	Data Communication
MM	Main Menu
NM	Natural Monitor

Action Enter a valid system code.

REV00219 Input not numeric

Explanation A value was entered into a field that is intended to accept numeric data only.

Action Enter a valid numeric value.

REV00220 Auto regenerate started

Explanation The subtask to generate auto-report definitions was successfully started.

Action This message is for information only.

REV00221 Auto regenerate already active

Explanation The subtask to generate auto-report definitions is still active from a previous execution.

Action Wait a few seconds and try the command again.

REV00222 Auto regenerate failed

Explanation The subtask to regenerate auto-report definitions was not attached and did not run.

Action Check your Adabas STEPLIB and make certain that the module RAOSAUTO is present.

REV00223 UEX4 version error

Explanation The Adabas UEX4 module RAOSEXIT is not the correct version.

Action Verify that Adabas Review has been correctly installed.

REV00224 MSG function not available from this screen

Explanation The Adabas Review message help subsystem is not available from this screen.

Action Perform the MSG function from another screen.

REV00225 DBID must be between 1 and 65535

Explanation The target database ID must be in the range between 1 and 65535.

Action Enter a database ID in the specified range.

REV00226 **SVC is zero**

Explanation The SVC specified cannot be zero (0).

Action Enter a correct SVC number.

REV00227 **Target type must be 'ADA', 'NET', 'NPR', or 'TPF'**

Explanation The target type must be one of the specified values.

Action Enter the correct target type.

REV00228 **DBID for Adabas target type must be less than 255**

Explanation If the target type is *ADA*, then the target database ID must be in the range of 1 to 255.

Action Enter a database ID in the specified range.

REV00229 **Field value must be 'Y' or 'N'**

Explanation An invalid value was entered for the field.

Action Enter a valid field value: either yes ("Y") or no ("N").

REV00230 **No target definition found for target *target-id***

Explanation The target definition did not exist for the requested target.

Action Define the target.

REV00231 **Target definition for DBID *dbid* saved**

Explanation The target definition was successfully saved.

Action This message is for information only.

REV00234 **Default definition cannot be purged**

Explanation The default definition for target 00000 cannot be purged.

Action This message is for information only.

REV00235 Target definition(s) purged successfully

Explanation The target definitions marked for purge were successfully deleted.

Action This message is for information only.

REV00236 No target definition exists for DBID dbid and default is not present

Explanation The target definition for the database specified did not exist, and there was also no default definition.

Action Add the target definition for the specified target.

REV00237 Generate started

Explanation The subtask to generate report definitions was successfully started.

Action This message is for information only.

REV00238 Generate already active

Explanation The subtask to generate report definitions is still active from a previous execution.

Action Wait a few seconds and try the command again.

REV00239 Generate failed

Explanation The subtask to generate report definitions was not attached and did not run.

Action Check your Adabas STEPLIB and make certain that the module RAOSAUTO is present.

REV00240 Function canceled

Explanation The requested function was terminated by user request and was not performed.

Action This message is for information only.

REV00241 Review file set successfully

Explanation The Adabas Review data file's database ID and file number were set successfully.

Action This message is for information only.

REV00242 Unable to open command log file for output

Explanation A report was started with the logging option set to "Y" (yes), but the file specified for output cannot be opened. The report is started without logging.

Action If this is an online report, make sure the DSN field of the Report Options screen is set to a valid command log output file. If this is a batch report, make sure the DSN= parameter of the LOG statement is set to a valid command log output file.

REV00243 Adabas Online Services is not installed

Explanation The request to invoke Adabas Online System (AOS) from Adabas Review has failed because AOS is not installed in the current Natural system file.

Action This message is for information only.

REV00244 Components not installed properly

Explanation The installation process did not complete successfully.

Action Make sure that all INPL and IUPD media are properly installed.

REV00245 PFnn not defined

Explanation The PF key that was pressed is not defined to perform a function.

Action Press a valid PF key.

REV00246 Press 'PF3' to exit or 'PF5' to save the profile

Explanation To exit without saving the changes made to a user profile, press PF3. To save the changes made to a user profile, press PF5.

Action See explanation.

REV00247 Userid must be specified

Explanation A user ID must be specified.

Action Enter a user ID.

REV00248 **Natural error *error-number* has occurred on line *line-number* of program *program-name***

Explanation A Natural error has occurred in one of Adabas Review's programs.

Action Record the information given in the message and contact your Software AG technical support representative.

REV00249 **Command log data set already in use**

Explanation A report was started with the logging option set to "Y" (yes), but the specified output data set is already in use by another report. The report is started without logging.

Action Either use another data set, or purge the report that is using the command log data set.

REV00250 **Logging is not valid for summary reports**

Explanation LOGGING was specified on the Report Options screen for a summary report. Only detail reports can perform the LOGGING function.

Action Either set LOGGING to "N" or set SUM/DETAIL to "D".

REV00252 **At least one field is required**

Explanation An attempt was made to save a report definition with no fields to be displayed. At least one field is required to save a report.

Action Correct the report definition and press PF5 to save the report definition.

REV00253 **There are no report definitions on file**

Explanation A request to list report definitions cannot be satisfied because there are no definitions to list.

Action This message is for information only.

REV00254 **At least one order field is required**

Explanation An attempt to save a summary report failed because there are no ORDER fields. At least one ORDER field is required for summary reports.

Action Make at least one field an ORDER field and save the report.

REV00255 Report definition conversion complete

Explanation The process of converting Adabas Review report definitions has completed.

Action This message is for information only.

REV00256 History file conversion complete

Explanation The process of converting Adabas Review history reports completed.

Action This message is for information only.

REV00257 User profile conversion complete

Explanation The process of converting Adabas Review user profiles has completed.

Action This message is for information only.

REV00258 Report definition conversion was canceled

Explanation The process of converting Adabas Review report definitions was canceled at the request of the user. Any reply other than "yes" or "change" on the LFILE confirmation screen will cause this message.

Action This message is for information only.

REV00259 History file conversion was canceled

Explanation The process of converting Adabas Review history reports was canceled at the request of the user. Any reply other than "yes" or "change" on the LFILE confirmation screen will cause this message.

Action This message is for information only.

REV00260 User profile conversion was canceled

Explanation The process of converting Adabas Review user profiles was canceled at the request of the user. Any reply other than "yes" or "change" on the LFILE confirmation screen will cause this message.

Action This message is for information only.

REV00261 There are no report definitions to convert

Explanation An attempt was made to convert report definitions, but there are none to convert. Adabas Review only converts report definitions that do not already exist in the target Adabas Review repository.

Action This message is for information only.

REV00262 There are no history reports to convert

Explanation An attempt was made to convert Adabas Review history reports, but there are none to convert.

Action This message is for information only.

REV00263 There are no user profiles to convert

Explanation An attempt was made to convert Adabas Review user profiles, but there are none to convert. Adabas Review only converts user profiles that do not already exist in the target Adabas Review repository.

Action This message is for information only.

REV00264 Error *error-number* while trying to convert report definitions

Explanation Either an Adabas or a Natural error has occurred while trying to convert report definitions.

Action Follow the Adabas or Natural procedures for error correction.

REV00265 Error *error-number* while trying to convert history reports

Explanation Either an Adabas or a Natural error has occurred while trying to convert history reports.

Action Follow the Adabas or Natural procedures for error correction.

REV00266 Error *error-number* while trying to convert user profiles

Explanation Either an Adabas or a Natural error occurred while trying to convert user profiles.

Action Follow the Adabas or Natural procedures for error correction.

REV00267 Do not try to convert to and from the same file

Explanation An attempt was made to run an Adabas Review conversion program with identical TO and FROM files.

Action Correct the LFILE for the TO or FROM file.

REV00268 Invalid file number

Explanation The user attempted to change the database ID and file number of the Adabas Review repository. The file number specified was not an Adabas Review file.

Action Specify a correct Adabas Review DBID/file number.

REV00269 No active targets found on SVC *svc*

Explanation No active database targets were found on the SVC number specified in the message.

Action Verify that the target definitions are defined to the correct SVC number.

REV00270 Database *dbid* is a Natural Process target

Explanation The target selected is a Entire System Server (formerly Natural Process) target type.

Action This message is for information only.

REV00271 Database *dbid* is not active

Explanation The database selected is not active.

Action This message is for information only.

REV00272 Database *dbid* is a non-Adabas target

Explanation The database selected is a non-Adabas type target.

Action This message is for information only.

REV00273 Report is already suspended

Explanation An attempt was made to suspend a report that was is already suspended.

Action This message is for information only.

REV00274 Invalid OP summary option

Explanation An invalid option was entered on the Edit Report screen for the OP summary parameter.

Action Enter a valid option.

REV00275 New report definition

Explanation A new report definition is being created.

Action Enter the parameters for the new report definition or exit.

REV00276 Report is already active

Explanation An attempt was made to reactivate a report that was already active.

Action This message is for information only.

REV00277 History data has been purged

Explanation Historical data was purged.

Action This message is for information only.

REV00278 History data was not purged

Explanation Historical data was not purged.

Action This message is for information only.

REV00279 History data not found

Explanation Historical data was not found.

Action This message is for information only.

REV00280 Available storage in thread insufficient

Explanation The available storage in the thread is insufficient.

Action Contact your Software AG technical support representative.

REV00281 An invalid request or an invalid FQE was found

Explanation An invalid request or an invalid free queue element (FQE) was found.

Action Contact your Software AG technical support representative.

REV00282 No response time report definition was specified

Explanation No response time report definition was specified.

Action Contact your Software AG technical support representative.

REV00283 Report definition has been purged

Explanation Report definition has been purged.

Action This message is for information only.

REV00284 Report definition was not purged

Explanation Report definition was not purged.

Action This message is for information only.

REV00285 Invalid device type for download

Explanation An attempt was made to download a report but the Natural session is not in PC mode.

Action If the device is a PC using Entire Connection, set your Natural session to PC mode by entering %+ on the command line, and reenter the DL command.

REV00286 Duplicate order numbers

Explanation More than one field has the same order number on the Edit Report screen.

Action Make each order number unique.

REV00288 Report is not active

Explanation An attempt was made to perform a function on a started report, but no started report with the specified report name was found.

Action This message is for information only.

REV00289 LOG command not allowed while viewing data

Explanation An attempt was made to issue the LOG command while viewing a report.

Action Stop viewing the report and reissue the LOG command.

REV00290 Adabas Review logging status changed

Explanation The Adabas Review dynamic logging options have been updated.

Action This message is for information only.

REV00291 Error returned during LOG request - *nnnn*

Explanation The LOG command was issued and an error occurred during processing. *nnnn* = the response code associated with the error.

Action Follow the Adabas or Natural procedures for error correction.

REV00292 Review not installed on database

Explanation While attempting to view the buffer pool display, Adabas determined that Adabas Review was not installed on that database and issued a response code.

Action This message is for information only.

REV00293 Function restarted due to Adabas rsp code 9

Explanation A Adabas Review function was restarted from the beginning because an Adabas response code 9 (ADARSP009) was received.

Action This message is for information only.

REV00294 NM component not installed

Explanation An attempt was made to enter Adabas Review NM, but the NM component was not on the installation media.

Action Determine whether the NM component was actually purchased. If it was purchased, then you may have inadvertently received the wrong Adabas Review installation media. Contact your Software AG representative.

REV00295 Select a history report

Explanation An attempt was made to view a list of dates and times of history records for a response time report without specifying the name of the report.

Action Specify the response time name.

REV00296 TID must be between 1 and 65,535

Explanation The terminal ID (TID) must be between 1 and 65,535.

Action Enter a valid TID number.

REV00297 Invalid TID specified

Explanation An invalid terminal ID (TID) was specified.

Action Enter a valid TID number.

REV00299 Function has been discontinued

Explanation The current version of Adabas Review no longer supports the requested function.

Action Refer to the *Adabas Review User* documentation for a list of available features and functions.

REV00300 Report not on file

Explanation The requested report definition could not be found in the Adabas Review data file.

Action This message is for information only.

REV00301 No OP summary information available

Explanation No OP summary information was available for the report specified.

Action This message is for information only.

REV00306 First field cannot be a buffer segment

Explanation A DB report was defined with the first field as a buffer segment (FBSEG01, RBSEG01 ETC). The first field cannot be a buffer segment.

Action Make another field the first field.

REV00307 No resident PGMLIB defined

Explanation A request was made to view a list of programs in the resident program library buffer, but none were defined to Com-plete.

Action This message is for information only.

REV00308 No resident programs defined

Explanation A request was made to view a list of programs in the resident programs, but none where defined to Com-plete.

Action This message is for information only.

REV00309 Unable to locate Adabas IDTH

Explanation Adabas Review was unable to locate the Adabas IDT header.

Action Contact your Software AG technical support representative.

REV00310 Unable to load ADALDI

Explanation Adabas Review was unable to load the ADALDI text module from the Adabas TXTLIB.

Action Verify that the Adabas TXTLIB is accessible from your z/VM machine.

REV00311 Database *dbid* has been ignored

Explanation The specified database has been ignored because an entry for the DBID was found in the IGNORE table in program N-IGNORE. No STATUS information is returned for this database.

Action If STATUS information for the database should be returned, edit and STOW the program N-IGNORE.

REV00312 Insufficient storage to reset stopwatch

Explanation An attempt to reset the stopwatch was unsuccessful due to insufficient storage.

Action Try again later.

REV00313 Only 'ON' and 'OFF' are valid values**Explanation** A value other than ON or OFF was entered.**Action** Enter ON or OFF.**REV00314 Command log data set switched****Explanation** The command log data set was switched successfully.**Action** This message is for information only.**REV00315 Command logging is not active for report****Explanation** Adabas Review command logging is not active for the specified report.**Action** Choose a report that has command logging.**REV00316 Invalid subpool ID****Explanation** The subpool ID specified was invalid.**Action** Select a valid subpool.**REV00317 There are no transaction summary records****Explanation** A Response Time Report was requested but no transaction summary records exist for the selected report.**Action** This message is for information only.**REV00318 There are no OP summary records****Explanation** A Response Time Report was requested but no OP summary records exist for the selected report.**Action** This message is for information only.**REV00319 Too many "AND" fields in selection criteria****Explanation** The AND fields in the selection criteria have resulted in a data string that is too long for Adabas Review to process.**Action** Reduce the number of AND statements and resave the report.

REV00320 Too many "OR" fields in selection criteria

Explanation The OR fields in the selection criteria have resulted in a data string that is too long for Adabas Review to process.

Action Reduce the number of OR statements and resave the report.

REV00321 Target SVC cannot be greater than 255

Explanation A value larger than allowed was entered in the SVC field of the target definition. The maximum value for this field is 255.

Action Enter the correct SVC number.

REV00322 User has already been canceled

Explanation The user specified in the cancel function has already been canceled.

Action This message is for information only.

REV00323 TID *terminal-id* canceled

Explanation The specified terminal ID has been canceled.

Action This message is for information only.

REV00325 TERMINAL *terminal-name* canceled

Explanation The specified terminal has been canceled.

Action This message is for information only.

REV00326 TID *terminal-id* not found

Explanation The terminal ID specified in the cancel, pick, or force function could not be found.

Action This message is for information only.

REV00327 User *user-id* not found

Explanation The user specified in the cancel, pick, or force function could not be found.

Action This message is for information only.

REV00328 Terminal *terminal-name* not found

Explanation The terminal name specified in the cancel, pick, or force function could not be found.

Action This message is for information only.

REV00329 Invalid TID specified

Explanation The terminal ID number specified in the cancel, pick, or force function was not a valid numeric value.

Action This message is for information only.

REV00330 Response time report - *report-name* STARTED

Explanation The specified Adabas Review response time report was successfully autostarted.

Action This message is for information only.

REV00331 No autostarted reports found to start

Explanation No Adabas Review Response Time reports were found to autostart.

Action This message is for information only.

REV00332 One report has been autostarted

Explanation Adabas Review has started one autostarted response time report.

Action This message is for information only.

REV00333 *count* reports have been autostarted

Explanation Adabas Review started the specified number of autostarted response time reports.

Action This message is for information only.

REV00334 History task recovery from Adabas time-out

Explanation The Adabas Review history interval task successfully recovered from an Adabas timeout (response code 9, ADARSP009).

Action This message is for information only.

REV00335 RNMH history task initializing in Natural

Explanation The Adabas Review history interval task successfully invoked Natural and is initializing.

Action This message is for information only.

REV00336 History task terminating. Unable to locate RNMTAB

Explanation The Adabas Review history interval task terminated because it was unable to locate RNMTAB.

Action Check that RNMTAB has been defined to CICS as a resident PPT entry, and that RNMTAB is available to CICS.

REV00337 History task terminating. Unable to load *module-id*

Explanation The Adabas Review history interval task terminated because it was unable to locate the RNMCIICS.

Action Check that RNMCIICS has been defined to CICS as a PPT entry and that RNMCIICS is available to CICS.

REV00338 History task terminating. Natural error *error-number* detected during initialization

Explanation The Adabas Review history interval task terminated because it encountered a Natural error during initialization.

Action Investigate the Natural error indicated, correct the problem, and restart the history subsystem.

REV00339 History task terminating. NM data file has not been initialized

Explanation The Adabas Review history interval task terminated because it detected that the Adabas Review Natural Monitor data file was not initialized.

Action Verify that the INSTALL program has been executed to initialize the Adabas Review Natural Monitor data file.

REV00340 History task terminating. Non-recoverable Natural error detected

Explanation The Adabas Review history interval task terminated because it encountered an error in Natural from which it could not recover.

Action Investigate the Natural error indicated, correct the problem, and restart the history subsystem.

REV00341 History task terminating normally

Explanation The Adabas Review history interval task terminated normally.

Action This message is for information only.

REV00342 History task terminating. Maximum reinitialization counter exceeded

Explanation The Adabas Review history interval task terminated because the counter for maximum reinitializations was exceeded.

Action Check messages sent to Adabas Review prior to this message to determine why the history task has reinitialized so many times.

REV00343 History task terminating

Explanation The Adabas Review history interval task terminated.

Action Check other Adabas Review messages issued prior to this message to determine if an error condition was encountered.

REV00344 TID *terminal-id* canceled by *user-id* at terminal *terminal-name*

Explanation The user with the specified terminal ID was canceled by another user at another terminal.

Action This message is for information only.

REV00345 User *user-id* canceled by *user-id* at terminal *terminal-name*

Explanation The user with the specified user ID was canceled by another user at another terminal.

Action This message is for information only.

REV00346 **Terminal *terminal-name* canceled by *user-id* at terminal *terminal-name***

Explanation The terminal with the specified name was canceled by another user at another terminal.

Action This message is for information only.

REV00347 **TID *terminal-id* forced**

Explanation The user with the specified terminal ID was forced.

Action This message is for information only.

REV00348 **User *user-id* forced**

Explanation The user with the specified user ID was forced.

Action This message is for information only.

REV00349 **Terminal *terminal-name* forced**

Explanation The terminal with the specified name was forced.

Action This message is for information only.

REV00350 **TID *terminal-id* forced by *user-id* at terminal *terminal-name***

Explanation The user with the specified terminal ID was forced by another user at another terminal.

Action This message is for information only.

REV00351 **User *user-id* forced by *user-id* at terminal *terminal-name***

Explanation The user with the specified user ID was forced by another user at another terminal.

Action This message is for information only.

REV00352 **Terminal *terminal-name* forced by *user-id* at terminal *terminal-name***

Explanation The terminal with the specified name was forced by another user at another terminal.

Action This message is for information only.

REV00353 User must be canceled before force

Explanation A CANCEL command must be issued for a user before a FORCE command can be issued.

Action This message is for information only.

REV00354 Invalid autostart option

Explanation An invalid response time report autostart option was specified. The value must be "Y" or "N".

Action Specify valid value.

REV00355 Invalid history refresh option

Explanation An invalid response time report history refresh option was specified. The value must be "Y" or "N".

Action Specify a valid value.

REV00356 Value must be in range *range-start* through *range-end*

Explanation The value specified is invalid for the field. Valid values are denoted by <range-start> through <range-end> in the message.

Action Specify a valid value in the range specified.

REV00357 History task terminating. Review NM incorrectly installed

Explanation The Adabas Review history interval task terminated because it was unable to verify that the Adabas Review Natural Monitor code was correctly linked with the Natural nucleus.

Action Verify that the Adabas Review NM code is correctly linked with the Natural nucleus.

REV00359 Report definition has been copied

Explanation The request to copy a report definition was successful.

Action This message is for information only.

REV00360 Review repository not available

Explanation An Adabas response code 148 (ADARSP148) was received while trying to store information in an Adabas Review repository.

Action Insure that the database ID and file number are correct and that the database is available.

REV00361 Database *dbid* inactive or invalid. Type 'TECH' for reason

Explanation The user attempted to perform an Adabas Review function against a database that was inactive, did not have Adabas Review installed, or was not running a compatible version of Adabas Review.

Action From the Database System menu, type TECH to determine why the current Adabas Review database is invalid and correct the error.

REV00362 Review is not installed in database *dbid*

Explanation Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The database selected did not have Adabas Review installed.

Action Verify that the database specified in the DBID= command is a valid Adabas Review database.

REV00363 Database *dbid* is not active

Explanation Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The database selected was not active (Adabas response code 148, ADARSP148).

Action Verify that the database specified in the DBID= command is a valid Adabas Review database and that it is active.

REV00364 Database *dbid* is below Review V3.4

Explanation Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The database selected has an invalid version of Adabas Review installed.

Action Verify that the database specified in the DBID= command is a valid Adabas Review database.

REV00365 Response code *rsp* received accessing DBID *dbid*

Explanation Using the DBID= command, the user attempted to change the Adabas Review database being accessed. The user received the indicated response code.

Action Verify that the database specified in the DBID= command is a valid Adabas Review database.

REV00366 TECH command only available from the DB system main menu

Explanation The user attempted to executed the TECH command from an Adabas Review panel other than the Database System menu. The Adabas Review TECH command is only executable from the Database System menu.

Action Execute the TECH command from the Database System menu.

REV00367 Display program does not match report

Explanation A VIEW or VW command terminated because the display program invoked was generated for a different report.

Action Regenerate the display program for the report that failed using the RG function of the List Reports screen.

REV00368 Parentheses are required for a list or range

Explanation A list or range of values was entered without parentheses into a processing rule.

Action Include the values within parentheses.

REV00369 Unpaired parentheses

Explanation The number of opening and closing parentheses are unequal.

Action Include a closing parentheses for each opening parentheses.

REV00370 Invalid HELP command

Explanation An invalid command was entered into the command line of a help screen.

Action Enter a valid command or press a valid PF key.

REV00371 GENAUTO is not available in CMS

Explanation A GENAUTO (or GA) command was entered but is not implemented in z/VM.

Action This message is for information only.

REV00372 Download is invalid from this screen

Explanation DOWNLOAD (or DL) was entered from a screen where the DOWNLOAD command is invalid.

Action Enter DL into the SEL column of the List Started Reports screen.

REV00373 MAX K must be at least *n* K

Explanation The MAX K value specified in the report options must be at least 4K for z/OS and z/VSE and at least 8K for BS2000.

Action Specify a value for MAX K that is at least the minimum.

REV00374 WRAPPING=Y only allowed on sequence reports

Explanation The WRAPPING value can only be set to "Y" for a SUMMARY report with SEQUENCE as the first display field.

Action Only specify WRAPPING=Y for SUMMARY reports with SEQUENCE as the first field.

REV00375 Invalid page size - must be 1-255

Explanation The page size entered on the Report Options screen is invalid. The value must be between 1 and 255.

Action Enter a valid page size.

REV00385 Value must be greater than 0.

Explanation The value must be greater than 0.

Action This message is for information only.

REV00386 FNR must be between 1 and 254

Explanation An attempt was made to change the FNR number to less than 1 or greater than 254.

Action Enter a FNR number in the range of 1 to 254.

REV00390 List not sorted due to excessive report data

Explanation The expanded list of history report occurrences could not be sorted because the resulting ISN list was too large. The list is displayed unsorted.

Action Increase the value in the LS ADARUN parameter.

REV00391 History report compression complete

Explanation The request to compress a history report completed successfully.

Action This message is for information only.

REV00392 File is in use by another compression process

Explanation An attempt was made to compress a history report but another report was being compressed at the time. This message can also occur if a CH function did not complete successfully.

Action If another report is being compressed, wait until it completes and try again. If a CH function failed, you must run the RESET function.

To run the RESET function:

1. Enter RESET HISTORY FILE on the command line of the DB System menu.
2. Follow the instructions on the screen.

REV00393 Compression will not be performed

Explanation A reply of "N" was given in response to the confirmation prompt prior to compressing a history report.

Action This message is for information only.

REV00394 History file does not need resetting

Explanation A request to reset the history file was made but the file does not need resetting.

Action This message is for information only.

REV00395 History file has been reset

Explanation This confirms that the history file has been reset. This essentially unlocks the lock that was placed on the file during a CH function.

Action None if the message says HISTORY FILE HAS BEEN RESET.

If the message also says DATA WAS LOST, restore the history file to a state prior to when the failing CH function was performed.

REV00396 Duplicate field in "AND" expression

Explanation A logical "AND" expression contains a duplicate field name in a processing rule. When using "AND" to connect fields, each field name can be used only once per expression.

Action Remove the duplicate field name from the expression.

REV00397 Target DBID has been changed

Explanation The target DBID has been successfully changed for the report definition.

Action This message is for information only.

REV00398 Bufferpool reports cannot be printed or downloaded

Explanation The graphical bufferpool reports cannot be downloaded or printed: they may only be viewed.

Action Use the VW command to view the report.

REV00399 AA is not available in VM/CMS

Explanation The AA function is not available in z/VM.

Action This message is for information only.

REV00400 Non zero response from target = *nnn*

Explanation A non-zero response code was returned from the specified target.

Action Determine why the non-zero response code occurred.

REV00401 Report defaults were saved

Explanation The report defaults were saved successfully.

Action No action is required for this informational message.

REV00402 No matching reports to generate

Explanation GENAUTO was started in local mode, but there are no autostarted reports with DBID-TO-MONITOR set to the local DBID. No autostarted reports will be generated.

Action No action is required for this informational message.

REV00403 Update completed

Explanation The report options were updated successfully.

Action No action is required for this informational message.

REV00404 No changes to update

Explanation A request to update reports was unnecessary because no changes were made.

Action No action is required for this informational message.

REV00405 Cannot start a rpt that monitors a hub

Explanation A request to start a report was unsuccessful because the DBID-TO-MONITOR was set to the Adabas Review hub ID. Adabas Review reports can only monitor Adabas targets.

Action Correct the report and retry.

REV00406 Only one buffer segment allowed per report

Explanation More than one buffer segment was defined in a report. Only one buffer segment per report is allowed.

Action Correct the report and retry.

REV00407 There are no history records to convert

Explanation An attempt was made to convert history records, but there are no history records to convert.

Action No action is required for this informational message.

REV00408 Only 1 order field allowed with sum exit

Explanation A summary exit was specified, but more than one order field was chosen for the report. Summary exit reports are limited to one (1) order field.

Action Reduce the number of order fields to 1.

REV00409 Pulse report cannot be purged

Explanation A request was made to purge the Pulse report. The Pulse report cannot be purged.

Action No action is required for this informational message.

REV00410 Report defaults not saved

Explanation A user canceled a prompt to confirm the saving of report defaults.

Action No action is required for this informational message.

REV00411 xxxxxxxx cannot be edited

Explanation The EP command was used to edit a display program, but the display program is for a fixed format report. Since these programs are specific, not dynamic, no source code is available to the user.

Action No action is required for this informational message.

REV00412 NUCID *nnnnn* is not available

Explanation An attempt was made to change the nucleus ID with which Adabas Review communicates, but the requested nucleus ID was not available.

Action Enter the NUC LIST command to obtain a list of available nucleus IDs and try again.

REV00413 NUCID only valid for cluster databases

Explanation A user executed the NUCID or NUC LIST command for a non-cluster database.

Action No action is required for this informational message.

REV00414 Duplicate field names not allowed

Explanation Two or more fields with the same name were entered on the ER screen. This is not allowed.

Action Remove the duplicate fields.

REV00415 Detail printer not available

Explanation A request to start a detail report failed because there was no detail printer available.

Action Delete another detail report first or provide more printers in the startup JCL. Then try again.

REV00416 Invalid data in rules value

Explanation An invalid character was entered into a processing rules value.

Action Remove the invalid character from the rules value and try again.

REV00417 Pulse interval must not be greater than 1440

Explanation The pulse interval was incorrectly specified for a Pulse report.

Action Specify a value between 1 and 1440 and try again.

REV00418 BUFFPOOL is not delivered in source form

Explanation An attempt to edit the display program BUFFPOOL failed because it is not delivered as source.

Action No action is required for this informational message.

REV00419 List size exceeded

Explanation The maximum list size of 10 has been exceeded in a processing rule.

Action Limit the list size to 10 and try again.

REV00420 Unable to obtain SVC list

Explanation An AA command was issued, but the list of SVCs cannot be accessed.

Action Make certain that ADATMZ exists and is accessible from the current Adabas Review hub or database. Then try again.

REV00421 There are no targets for this SVC

Explanation After an AA command, an SVC was selected, but there are not targets available for that SVC.

Action No action is required for this informational message.

REV00422 Only order fields are allowed for detailed reports

Explanation SUM, MIN, MAX, AVG, or ROUND were selected on the Edit Reports screen, but the report is a detailed report. ORDER is the only valid entry for a detailed report.

Action Remove the invalid entries and try again.

REV00423 Report type changed -- defaults were reset

Explanation While editing a report, the detail/summary report type was changed. Each report type requires its own set of default report options. The default report options for the new report type have now been loaded.

Action No action is required for this informational message. Press PF2 to make any necessary changes to the report options.

REV00424 Unable to retrieve data from target *nnnnn*

Explanation For reasons unknown to Adabas Review, the requested target was unable to supply AA information.

Action No action is required for this informational message.

REV00425 Parameter input is missing or invalid

Explanation The expected parameter input was either missing or has invalid data.

Action Correct the input data and try again.

REV00426 **Value for *keyword* is missing or invalid.**

Explanation The parameter input for a keyword was either missing or has invalid data.

Action Correct the keyword input and try again.

REV00427 **{TARGET|DBID|FILE} is not available**

Explanation The parameter input for a SET command keyword refers to an unavailable destination.

Action Correct the keyword data or make sure the destination is available.

REV00428 **{TARGET ID|DBID|FILE} has been set to *nnnnn***

Explanation A SET command changed the target ID, database ID, or file successfully.

Action No action is required for this informational message.

REV00429 **SET program has terminated with errors**

Explanation The SET program encountered errors. The error will have been more clearly identified in a previous message.

Action Correct the error and try again.

REV00430 **More than 256 target definitions on file**

Explanation The maximum number of target definitions has been exceeded.

Action Limit the number of targets to 256.

REV00431 **Cannot save report due to error**

Explanation An attempt to save a report was unsuccessful because there was an error in the report definition.

Action Correct the report definition and try again.

REV00432 **There are no REVIEW hubs running on SVC *nnn***

Explanation The AH (Available Review Hubs) command was entered but there are no hubs running in the current SVC to display.

Action No action is required for this informational message.

REV00433 **ADATMZ cannot be loaded**

Explanation Upon initialization, SYSREVDDB calls a program named ADATMZ. This program was not available.

Action Make certain ADATMZ is installed and available to SYSREVDDB. If you are running Adabas Review in a CICS environment, verify that ACITMZ is installed. For more information, read the Adabas Review installation documentation.

 If the problem persists, contact your Software AG technical support representative.

REV00434 *ADATMZ: message-text*

Explanation Upon initialization, SYSREVDDB calls a program named ADATMZ. One of the following messages (*message-text*) is included in the message and describes the error that has occurred with ADATMZ.

Message Text	Explanation	Action
No Adabas SVCs found	An internal error has occurred.	Contact your Software AG technical support representative for assistance.
No active targets for an SVC		
IDTHE appears to be invalid		
Invalid or unknown function		
Caller has answer area no answer count		
GETMAIN for SVC table failed		
GETMAIN for target table failed		
Load of link routine failed	ADATMZ dynamically loads ADALNKR. If ADALNKR cannot be loaded, subsequent calls to ADATMZ can cause this problem.	Be sure that the ADATMZ and ADALNKR modules, which are available in the Adabas or WAL load libraries, are all available for the TP monitor.
Load of CCSTCK routine failed	ADATMZ dynamically loads CCSTCK. If CCSTCK cannot be loaded, subsequent calls to ADATMZ can cause this problem.	Be sure that the ADATMZ and CCSTCK modules, which are available in the Adabas or WAL load libraries, are all available for the TP monitor.
Initialization call to DEPRTR failed	An internal error has occurred.	Contact your Software AG technical support representative for assistance.
No SVC table address provided by caller		
SVC table address inconsistent with PAL		
No SVC count provided by caller		
Invalid SVC number too low	The version of ADATMZ that was loaded is too low.	Install the current version of ADATMZ. Contact your Software AG technical support representative for assistance.
Invalid SVC number too high	The version of ADATMZ that was loaded is too high.	Install the current version of ADATMZ. Contact your Software AG technical support representative for assistance.
No SVC <i>tbladdr</i> on get target call	An internal error has occurred.	Contact your Software AG technical support representative for assistance.
No target <i>tbladdr</i> on get target call		
No target table length		

REV00435 Buffer Pool reports cannot have DBID=ALL

Explanation A value of "ALL" was specified as the DBID to monitor while attempting to start a report. Buffer Pool reports must only collect data from a single database, specifying "ALL" for them is not allowed. The report will not be started.

Action Specify a numeric DBID for the Buffer Pool report.

REV00436 Invalid field for client report

Explanation A reporting field was referenced in a client report that was not valid for client reports. Client reports have a restricted set of available fields. A complete list of these fields is provided in ????

Action Specify a valid field name.

REV00437 The maximum number of fields has been selected

Explanation While selecting fields for a report using the online field selection screens, the maximum allowable number of fields you can select has been reached. All fields selected beyond the maximum are ignored.

Action Specify fewer fields, ensuring that only the most important fields are selected.

REV00438 Invalid field for a database report

Explanation A client reporting field was referenced in a database report. This field is only permitted in a client report.

Action Specify a valid field name.

**REV00439 Warning: A client report has been started.
If client monitoring is not turned on,
no client monitoring will be collected.
Press ENTER to exit**

Explanation This message appears in a pop-up box whenever a client report is started. It warns you that if client reporting has not been started, no client reporting data will be collected.

Action No action is required for this informational message. Press the ENTER key to remove the pop-up box containing the message.

REV00440 Redisplay buffer full - Redisplay unavailable

Explanation The Redisplay function is unavailable because more than 5000 lines were displayed.

Action As a workaround, the report data can be printed using the HC command and other tools might be used to scroll through that output.

REV00441 Report name cannot be 'ALL'

Explanation The name "ALL" was used as a report name in the report definition editor. The word "ALL" is reserved in Adabas Review and cannot be used as a report name.

Action Specify a different name.

REV00442 The display program has not been generated yet

Explanation An attempt was made to edit the display program for a report but the display program has not yet been generated. This is most likely due to having copied a report where the display program name shows as "NEED RG".

Action Enter RG on the command line to generate the display program.

REV00443 Userid is required

Explanation User profiles require a unique user or group ID in the **User ID / Group ID** field. You cannot create a user profile without one.

Action Specify a valid user or group ID for the user profile. Valid user or group IDs are eight alphanumeric characters long and begin with either a letter or a national (\$, @, or #) character.

REV00444 Group must be "Y" or "N"

Explanation The setting for the **Group** access rule in the user profile definition is not "Y" (yes) or "N" (no). These are the only valid values for the field.

Action Specify either "Y" or "N" for the **Group** access rule.

REV00445 Description is required

Explanation User profiles require a description in the **Description** field.

Action Specify up to 20 alphanumeric characters for the description.

REV00446 At least one report type must be "Y" for "EDIT REPORTS=Y"

Explanation When the **Edit Reports?** access rule in a profile is set to "Y", at least one of the other edit report access rules must also be set to "Y". The other edit report access rules are **Edit Bufferpool Reports?**, **Edit Client Reports?**, **Edit Cluster Reports?**, **Edit Database Reports?**, and **Edit Pulse Reports?**.

Action Either set the **Edit Reports?** access rule to "N" or specify "Y" for one of the other edit report access rules.

REV00447 All report types must be "N" for "EDIT REPORTS=N"

Explanation When the **Edit Reports?** access rule in a profile is set to "N", none of the other edit report access rules may be set to "Y". The other edit report access rules are **Edit Bufferpool Reports?**, **Edit Client Reports?**, **Edit Cluster Reports?**, **Edit Database Reports?**, and **Edit Pulse Reports?**.

Action Either set the **Edit Reports?** access rule to "Y" or specify "N" for all of the other edit report access rules.

REV00448 Cannot save - This is the only Administrator profile

Explanation An attempt has been made to alter and save the only administrator profile so that it is no longer an administrator profile. Adabas Review will not allow you to turn the default profile or any administrator profile into a non-administrator profile if another administrator profile is not available.

Action If you intend to change the only administrator profile to a non-administrator profile, first create another administrator profile. You can then alter and save the original administrator profile as you wish.

REV00449 Cannot purge - This is the only administrator profile

Explanation An attempt has been made to delete the only administrator profile so that there is no longer an administrator profile. Adabas Review will not allow you to delete an administrator profile if another administrator profile is not available.

Action If you intend to delete this administrator profile, first create another administrator profile. You can then delete the original administrator profile.

REV00450 Monitor DBID *dbid* prohibited by profile

Explanation An attempt has been made to create, start or alter a report for a DBID that is not included in the DBID list of your user profile.

Action Contact your system administrator to change your user profile or change the DBID you are trying to monitor in the report.

REV00451 User profiling is already installed

Explanation An attempt was made to install the user profiling system when it is already installed.

Action No action is necessary for this informational message.

REV00453 You must enter at least one DBID

Explanation When editing an Adabas Review user profile, the option **Monitor All Targets?** was set to "N", however, a DBID was not specified. At least one DBID must be specified if this option is set to "N".

Action Specify at least one DBID or set **Monitor All Targets?** to "Y".

REV0454 Profile reset to default values

Explanation All values for the user profile you are viewing have been reset to the factory values.

Action No action is required for this informational message.

REV00455 Group must be 'Y' or 'N'

Explanation An invalid or blank value was entered in the **Group Profile?** option of the user profile. This option must be set to either "Y" or "N".

Action Specify a valid value for the **Group Profile?** option.

REV00456 Info: Both "ALL TARGETS" and specific DBIDs are defined

Explanation The user profile option **Monitor All Targets?** was set to Y but there are DBIDs listed. This is perfectly valid; in this case, the listed DBIDs have no effect on processing. However, if you later set the option to "N", the listed DBIDs will become the only valid DBIDs for the user.

Action No action is necessary for this informational message.

REV00457 Invalid user ID

Explanation The user ID entered on the user profile screen is invalid. User IDs must begin with a letter followed by any combination of alphanumeric or national (@#\$) characters.

Action Specify a valid user ID.

REV00458 Review Client engine status has been turned {ON |OFF}

Explanation The Review Client status was toggled either on or off, as shown in the message.

Action No action is required for this informational message.

REV00459 Review exit 2 is not installed

Explanation While using the CM function, a call to communicate with client monitoring has determined that REVEXIT2 is not properly installed.

Action Verify that the installation of REVEXIT2 has been performed correctly. For more information, refer to your Adabas Review (Phase 2) installation documentation.

REV00460 Review exit 2 is not active

Explanation While using the CM function, a call to communicate with client monitoring has determined that REVEXIT2 is not active. It is possible to have REVEXIT2 linked into the link routine but not have it set to active in the LNKGBLS tables.

Action Verify that the installation of REVEXIT2 has been performed correctly. For more information, refer to your Adabas Review (Phase 2) installation documentation.

REV00461 Response *nnn* received from REVEXIT2

Explanation While using the CM function, a non-zero response code was returned from REVEXIT2. This is rare.

Action Verify that the installation of REVEXIT2 has been performed correctly. For more information, refer to your Adabas Review (Phase 2) installation documentation. If you need additional assistance, contact your Software AG support representative.

REV00462 Ending apostrophe missing

Explanation While editing the report processing rules for a report, an argument was specified with unpaired apostrophes.

Action Correct the argument syntax and try again.

REV00463 Ending apostrophe incorrectly placed

Explanation While editing the report processing rules for a report, an apostrophe was incorrectly used.

Action Correct the syntax and try again.

REV00464 The maximum number of fields has been selected

Explanation The maximum field limit has been reached. You cannot select any more fields.

Action Evaluate the fields you have selected, removing ones you don't really need and adding ones you do, but be sure to stay within the maximum field limit.

REV00465 Unable to obtain SVC list

Explanation While trying to use the AA function, the Adabas Review nucleus was unable to obtain the list of available SVCs on the current LPAR.

Action Verify your Adabas Review installation is correct. If the problem persists, contact your Software AG support representative for assistance.

REV00466 Report option defaults converted successfully

Explanation While editing a preexisting report after upgrading Adabas Review from version 4.4, the report defaults were converted to the current standard.

Action No action is required for this informational message.

REV00467 Invalid character in field name

Explanation While editing a report, an invalid character was used in one of the field names.

Action Correct the field name syntax and try again.

REV00468 Cannot EC a non-client report

Explanation An attempt was made to edit a non-client report using the EC command. The EC command only edits client reports.

Action Use the ER command to edit a non-client report.

REV00469 Command line entries are not valid here

Explanation When entering Adabas Review for the first time after upgrading from a previous version, a user profile conversion takes place. The only actions allowed are on the screen. Command line entries are not allowed for this special one-time event.

Action Do not enter data on the command line while this conversion is taking place.

REV00470 NUCID only valid in local mode

Explanation The NUCID command was used but SYSREVDB is currently communicating with an Adabas Review hub. The NUCID command is only valid when SYSREVDB is communicating with a local mode target.

Action Do no use the NUCID command in hub mode.

REV00471 No NUCID was selected

Explanation PF5 was pressed on a NUCID list screen but no NUCID was selected.

Action Select a NUCID or use PF3 to exit the NUCID screen.

REV00472 NUCID has been changed

Explanation Upon request, the NUCID was successfully changed.

Action No action is required for this informational message.

REV00473 CM function only available in hub mode

Explanation An attempt to turn on the client report engine using the CM command was made in local mode. The CM command is available only in hub mode.

Action Operate Adabas Review in hub mode before attempting to start the client reporting engine.
