

Apama Predictive Analytics Plug-in 9.12 Readme

October 2016

This file contains important information you must read before using Apama Predictive Analytics Plug-in 9.12. You can find system requirements, user documentation, and installation and upgrade instructions on the [Documentation website](#) or the [TECHcommunity website](#). At those locations, you can also find suite-related security and globalization information.

Included in this file is information about functionality that has been added, removed, deprecated, or changed for this product. Deprecated functionality continues to work and is supported by Software AG, but may be removed in a future release. Software AG recommends against using deprecated functionality in new projects.

1.0 Critical Information

This section lists any critical issues for the current release that were known when this readme was published. For critical information found later, go to the Knowledge Center on the [Empower website](#).

Predictive Analytics Plug-in 9.12 requires Apama 9.12 to be installed.

2.0 Known Issues

This section lists any issues for the current release that were known when this readme was published. For known issues found later, go to the Knowledge Center on the [Empower website](#).

- None

3.0 Usage Notes

This section provides any additional information you need to work with the current release of this product.

- Added new ModelManager API to add, remove, and update PMML models. Refer to ModelManager API in Predictive Analytics Plug-in EPL (ApamaDoc) at <http://documentation.softwareag.com>.
- Added new ResourceManager API to add or remove resources such as custom functions and lookup tables. Refer to ResourceManager API in Predictive Analytics Plug-in EPL (ApamaDoc) at <http://documentation.softwareag.com>.
- The license for the Predictive Analytics Engine can now be provided during installation. It can also be copied to APAMA_WORK/license directory after installation.
- Samples are moved from APAMA_HOME/adapters/samples to APAMA_HOME/samples/PredictiveAnalytics.

4.0 Fixes Included in Each Release

This section lists the latest fix level that has been included in each release for each product component. A release is listed in this section only if changes occurred in that release. Go to the Knowledge Center on the [Empower website](#) for detailed information about fixes.

Release 9.10

- None

Release 9.9

- None

5.0 Other Resolved Issues

This section lists the issues that were resolved in each release but were not part of the fixes listed in the previous section. A release is listed in this section only if changes occurred in that release.

Release 9.12

- Predictive Analytics Engine is updated from ADAPA 4.1 to 4.2.4. From PMML 4.2, the usage value of the attribute `usageType` in the element `MiningSchema` is changed from “predicted” to “target”.

6.0 Documentation Changes

This section describes significant changes to the documentation, such as the addition, relocation, or removal of product guides, online help, chapters, or other major content. A release is listed in this section only if changes occurred in that release.

Apama Predictive Analytics Plug-in is provided with webhelp. This can be accessed from <http://documentation.softwareag.com>. The webhelp is also provided in the installation directory at `Apama/adapters/doc/ADAPA/webhelp/index.html`.

7.0 Terminology Changes

8.0 Added, Removed, Deprecated, or Changed Items

See Release Notes section in *Predictive Analytics Add-on* documentation at <http://documentation.softwareag.com>.

9.0 Added, Removed, Deprecated, or Changed APIs

See *Predictive Analytics Add-on* documentation.
