TECHNICAL
PRODUCT MATRIX

ARIS 9.8 SR6
October 2016

Compatibilities

If nothing else is mentionend, this document is based on the latest available releases/service releases. **Products**	ARIS Design Server*	ARIS Publisher Server*	ARIS Architect*	ARIS Designer*	ARIS Connect	ARIS UML Designer*	ARIS Risk & Compliance Manager Base System*	ARIS Business Optimizer*	Alfabet	MashZone Legacy & NextGen
ARIS Design Server*		Sync	Repository	Repository	Repository	Repository	Import	Repository	Link, Import (4)	Web Service
ARIS Publisher Server*	Sync		Sync	Sync						
ARIS Architect*	Repository	Sync			Repository	Repository	Import	Repository	Link, Import (4)	Web Service
ARIS Designer*	Repository	Sync	Repository		Repository	Repository	Import	Repository	Link, Import (4)	Web Service
ARIS Connect	Repository (2)	Synch (2)	Repository (2)	Repository (2)		Repository (2)	Import	Repository (2)	Link, Import (4)	iFrame (1), Web Service
ARIS UML Designer*	Repository		Repository (3)	Repository (3)						
ARIS Risk & Compliance Manager Base System*	Import		Import	Import						Web Service
ARIS Business Optimizer*	Repository		Repository	Repository	Repository					
* including all ext. packs	**Possible entries:** Web Service= Modeling content can be fed into MashZone via Web Service. Repository = Both products can be used on a common repository and/or can share modeling content. Sync = Modeling content can be published via Sync. Import = Data can be imported from product to the other. iFrame= MashZone dashboards can be integrated into Connect via iFrame but without common user. Link = Assets can be linked from product of other product.									
	Remarks: 1 = MashZone dashboards can be integrated into Connect via iFrame but without common user. 2 = Counts only for ARIS Connect Server which includes ARIS Design Server. 3 = UML models cannot be shared with ARIS Architect or ARIS Designer. 4 = Interoperability is established with ARIS Alfabet Interoperability license; not supported for ARIS Connect Viewer.									

Compatibilities

If nothing else is mentionend, this document is based on the latest available releases/service releases. **Products**	PPM Server*	webMethods BPMS and CentraSite	Apama	Minitab®	SAP® B/IBW	SAP® Solution Manager	SAP Transactions + SAP® SolMan Documents	Reischmann Interfaces (Case-Tools u.a.)	Microsoft® SharePoint®
ARIS Design Server*	Import								EP SharePoint**
ARIS Publisher Server*							generally compatible		EP SharePoint**
ARIS Architect*	Import	EP webMethods**		EP webMethods EP Simulation**	EP SAP**	EP SAP**	EP SAP**	generally compatible	
ARIS Designer*	Import				EP SAP**		EP SAP**		
ARIS Connect	iFrame (1)						only SAP Transactions		EP SharePoint**
ARIS UML Designer*								generally compatible	
ARIS Risk & Compliance Manager Base System*			Import						
ARIS Business Optimizer*									

* including all ext. packs
** Compatibility will be established via specified extension pack(s)
EP = extension pack

Methods

Main Products	Extension Packs		Methods	Standards/Regulations	Remark
ARIS Design Server	without ext. packs		Standard	EPC, VACD, BPMN2.0	
	+	EP ArchiMate®	ArchiMate		
	+	EP TOGAF®	TOGAF		
ARIS Architect	without ext. packs		Standard	EPC, VACD, BPMN2.0	Since ARIS 9.0 this includes also rules modeling
	+	EP webMethods integration			
	+	EP SAP	SAP, BI		
	+	EP EAM	EA	Zachman, TEAF/FEAF, IT City Planning	
	+	EP Business Strategy	Strategy	BSC, SixSigma, Lean, VSM, Business Model Canvas, BMM	
	+	EP Process Governance			technical variant of EPC
ARIS Designer	without ext. packs		Standard	EPC, VACD, BPMN2.0	Since ARIS 9.0 this includes also rules modeling
	+	EP Business Strategy	Strategy	BSC, SixSigma, Lean, VSM, Business Model Canvas, BMM	
	+	EP EAM	EA	Zachman, TEAF/FEAF, IT City Planning	
	+	EP SAP	SAP, BI		
ARIS Connect					Supported model types in ARIS Connect are listed in ARIS Method Matrix
ARIS UML Designer	without ext. packs		UML	UML2.5, XMI 2.1
