1 Text conventions

Menu items, file names, etc. are indicated in texts as follows:

- Menu items, key combinations, dialogs, file names, entries, etc. are displayed in **bold**.
- User-defined entries are shown as **<bold text in angle brackets>**.
- *Example texts that are too long to fit on a single line, such as a long directory path, are wrapped to the next line by using ↵ at the end of the line.*
- File extracts are shown in this font format:

`This paragraph contains a file extract.`

2 Support

Visit the [Empower and Documentation](#) Web sites of Software AG to learn about support policies and critical alerts, read technical articles and papers, download products and fixes, submit feature or enhancement requests, and more.

Visit the [Software AG TECHcommunity](#) Web site to access additional articles, demos, tutorials, technical information, samples, useful resources, online discussion forums, and more.

3 General

This file contains important information about using Process Extractor for ARIS Process Mining 10.0.15. Specific user documentation is available on the [TECHcommunity](#) Web site. Go to the Documentation area of the community to find the following documents in the ARIS section:

- ARIS System Requirements
- Process Extractor for ARIS Process Mining

This file contains information about functionality that has been added, removed, marked as deprecated, or changed for this product. Deprecated functionality continues to work and is supported by Software AG but may be removed in a future release. Software AG strongly recommends that you do not use deprecated functionality in new projects.

4 Critical information

Please go to the [Knowledge Center](#) on Empower to find out about important information that Software AG might retrospectively publish about the current Process Extractor release.

5 Known issues

This section lists all issues that were known about the current Process Extractor release at the time when these Release Notes were published. Any issue identified at a later point in time will be documented in the Knowledge Center of Empower.

Currently there are no known issues for Process Extractor 10.0.15.

6 Usage notes

This section provides you with important details about how to work with the current product release.

Installation

For detailed information on installing and configuring Process Extractor for ARIS Process Mining, please refer to the documentation **Process Extractor for ARIS Process Mining.pdf**.

7 Changes in version 10.0.15

As this is the initial release of the Process Extractor, there are no changes available to be mentioned here.

8 Former versions

No former version available – version 10.0.15 is the first issue of Process Extractor.
