Glossary

C

Configuration File	The Configuration File is an Adabas file containing the configuration definitions for your site. The same Configuration File may also be shared by other products.
--------------------	--

D

Daemon	A Daemon manages the control of one or more services such as the Adabas Fastpath asynchronous buffer manager. Daemons run collaboratively within a network infrastructure referred to as a Group.
--------	---

G

Group	An Adabas System Coordinator Group defines a logical network of computers where Daemons run.
