

Natural System Error Messages 9051-9100

NAT9100: Printer :1: not available.

Text	Printer ... not available.
Expl.	A printout was requested for a printer number which is not defined for the NATURAL session. Printers may be defined as follows: - in batch, with appropriate job control statements; - online, with dynamic NATURAL parameters.
Actn.	Make sure that the definitions of printers agree with printer references in programs.
