      Help           Exit                               Canc
```

From the main menu of the SYSERR utility, you can execute all SYSERR utility functions available for creating and maintaining messages. The individual functions are explained in the section *Functions*. The parameters that apply with the functions are explained in general in the section *Parameters*; any restrictions that apply to the use of these parameters are described for each function concerned in the section *Functions*.

The SYSERR utility provides an extensive online help system. To obtain field-specific help information, either enter a question mark in the relevant field and press ENTER or place the cursor in the field and press PF1.
