

# NDB - Statements and System Variables

This section contains special considerations concerning Natural DML statements, Natural SQL statements, and Natural system variables when used with DB2.

It mainly consists of information also contained in the Natural documentation set where each Natural statement and variable is described in detail.

For an explanation of the symbols used in this section to describe the syntax of Natural statements, see Syntax Symbols in the Natural Statements documentation.

This section covers the following topics:

- DB2 Special Register Consideration
- Natural DML Statements
- Natural SQL Statements
- Natural System Variables
- Multiple Row Processing
- Error Handling
