

Storing Data and Leaving the Software AG Editor

You can store data and/or leave the editor by using any of the following main commands:

Main Command	Explanation
CANCEL	Leaves the editor. Any changes made during this editing session do not take effect.
END	If AUTOSAVE is ON, stores data including any changes, and leaves the editor. If AUTOSAVE is OFF, the END main command acts as a CANCEL command if no data was modified. If changes were made, a message asks you to issue a SAVE or CANCEL command.
SAVE	Stores the data (including any changes) currently contained in the source work area of the editor. The editing session continues.
