

UC - Underlining Character

This session parameter determines the character that is used as underlining character for the following:

- column headings generated by `DISPLAY` statements;
- page titles/trailers produced by `WRITE TITLE / WRITE TRAILER` statements with `UNDERLINED` option.

Possible settings	any character	See also Note below.	
	OFF		
Default setting	- (hyphen)		
Specification within session	yes	Applicable Statements:	DISPLAY FORMAT WRITE TITLE WRITE TRAILER
		Applicable Command:	none

Note:

If you do not wish column headers to be underlined, you have the following options:

- `UC=` - A blank line will be output instead of underlining.
- `UC=OFF` - The field values will be output immediately below the heading line, without any blank line in between.

You can specify `UC=OFF` only at the statement level of a `DISPLAY` statement; in this case, you cannot make any other `UC` specifications for individual fields in that statement.

Examples:

```
FORMAT UC=*
DISPLAY (UC= ) NAME AGE (UC=+)
```

See also *Underlining Character for Titles and Headers - UC Parameter* in the *Programming Guide*.
