UC - Underlining Character

This session parameter determines the character that is used as underlining character for the following:

- column headings generated by `DISPLAY` statements;

- page titles/trailers produced by `WRITE TITLE` / `WRITE TRAILER` statements with `UNDERLINED` option.

Possible settings	any character	See also Note below.	
	`OFF`		
Default setting	– (hyphen)		

Specification within session	yes	Applicable Statements:	`DISPLAY`
			`FORMAT`
			`WRITE TITLE`
			`WRITE TRAILER`

		Applicable Command:	none

Note:
If you do not wish column headers to be underlined, you have the following options:

- `UC=` - A blank line will be output instead of underlining.

- `UC=OFF` - The field values will be output immediately below the heading line, without any blank line in between.

  You can specify `UC=OFF` only at the statement level of a `DISPLAY` statement; in this case, you cannot make any other `UC` specifications for individual fields in that statement.

Examples:

```
FORMAT UC=*
DISPLAY (UC= ) NAME AGE (UC=+)
```
