RESET-ATTRIBUTES Action

This chapter covers the following topics:

- Description

- Parameters

Description

Resets all attributes in the global attribute list to their default values. For the default values, see the section Attributes. It is recommended to use this action before creating dialog elements dynamically with the ADD Action, for example, in an after open event handler.

Parameters

Name/Data Type	Explanation
Response (I4)	Output
	Natural error (if applicable).

Example:

```
/* After open event handler code
PROCESS GUI ACTION RESET-ATTRIBUTES GIVING #RESPONSE
PROCESS GUI ACTION ADD...
```
