

TOOLBAR-HANDLE

Associates a tool bar and a dialog. Several dialogs may share one tool bar. Please note that the handle value of the tool bar must be assigned to the TOOLBAR-HANDLE attribute before you can make the tool bar visible with the HAS-TOOLBAR attribute.

Applies to	Dialog (window, MDI frame, MDI child).
Data Type	HANDLE
Default Value	NULL-HANDLE
Possible Values	NULL-HANDLE / any handle of a tool bar
