

Saving Source Code

You can save source code as either a source object only or as a source object and, additionally, a cataloged object (generated program) in the current Natural library in the current Natural system file.

For the naming conventions that apply to an object, refer to *Object Naming Conventions* in the *Using Natural Studio* documentation.

▶ **To save source code as a source object**

- Proceed as described in *Saving Objects* in the *Using Natural Studio* documentation.

▶ **To save source code as a source object and a cataloged object**

- Proceed as described in *Storing Objects* in the *Using Natural Studio* documentation.
