Saving Source Code

You can save source code as either a source object only or as a source object and, additionally, a cataloged object (generated program) in the current Natural library in the current Natural system file.

For the naming conventions that apply to an object, refer to *Object Naming Conventions* in the *Using Natural Studio* documentation.

- To save source code as a source object
- Proceed as described in Saving Objects in the Using Natural Studio documentation.
- To save source code as a source object and a cataloged object
 - Proceed as described in *Stowing Objects* in the *Using Natural Studio* documentation.
