Natural System Error Messages 1851-1900

NAT1900: Couldn"t create a connection point (SOCKET code :1:).

Text	Couldn"t create a connection point. (SOCKET code :1:).
Expl.	The socket function "socket" failed to execute because - No more socket descriptors are available - No buffer space is available - The network subsystem or the associated service provider has failed
Actn.	check your system for 1) socket descriptors already in use 2) enough buffer space 3) correctly installed network system
