Managing Messages in Different Libraries

You can transfer messages between different libraries and move, rename, find, list or delete messages in different libraries. For a transfer, you can copy the messages to and from a file.

▶ To copy/move, rename, find, list or delete messages

- Use the appropriate Natural Studio functions described in the *Using Natural Studio* documentation.

  Or:
  Use the Object Handler as described in the relevant documentation.

▶ To transfer messages using files

- Use the **Export Message File** and **Import Text File** functions described in the section *Options Menu*.

  Or:
  Use the Object Handler as described in the relevant documentation.
