

Tools

The Object Handler provides special features in the **Tools** menu to display status information and reports, check and modify trace settings and transfer work files to and from remote environments.

This section covers the following topics:

- Status
 - Last Result
 - Traces
 - Reports
 - Transfer Work File
-

Status

Displays the Object Handler functions currently used, the user environment, the Workplan library and the current usage of Work Files 1 to 15.

To display the status

- From the **Tools** menu, choose **Show Status**.

Last Result

Displays the last internal command issued by the processing interface of the Object Handler and possible return codes and messages.

To display the last result

- From the **Tools** menu, choose **Last Result**.

Traces

Activates or deactivates the trace function. Traces record internal Object Handler program flows to provide control information for error diagnoses. The trace option is set off by default.

To change the setting

- From the **Tools** menu, choose **Trace Setting**.

To maintain permanent trace files in remote environments

- From the **Actions** menu, choose **Change Workplan Library** and proceed as described in *Remote Environments* in *Change Workplan Library* in the section *Administration*.

Reports

Lists the objects processed with the unload, load, scan or find function, and records errors that may interrupt processing. The report option is set on by default and is displayed after the unload, load, scan or find function has been executed.

▶ To display the contents of the latest report file

- From the **Tools** menu, choose **Show Report File**.

▶ To change the settings in local environments

1. From the **Options** menu, choose **Settings** and the tabbed page **General**.
2. In the **Settings** window, on the tabbed page **Options**, select the option button **Use additional options** and choose the **Set** button.
3. Choose the tabbed page **General**.

For possible settings, see *General* in the section *Settings - Options*.

▶ To maintain permanent report files in remote environments

- From the **Actions** menu, choose **Change Workplan Library** and proceed as described in *Remote Environments* in *Change Workplan Library* in the section *Administration*.

Transfer Work File

Only applicable to remote environments located on mainframe platforms.

Transfers the contents of work files from local environments to mainframe servers and vice versa. The work files must be of corresponding types. See also *Work File Format* in the section *Work Files*.
