

About this Documentation

This documentation describes the Natural system commands.

Natural system commands perform functions you need to create, maintain or execute Natural programming objects. In addition, Natural system commands are used to monitor and administer your Natural environment.

This documentation is organized under the following headings:

	Issuing System Commands	Describes the general rules that apply when you enter a Natural system command.
	System Command Syntax	Explains the symbols that are used within the syntax descriptions of Natural system commands.
	System Commands Grouped by Function	Provides an overview of the Natural system commands grouped according to their functions.
	System Commands in Alphabetical Order	Descriptions of the system commands in alphabetical order. The selection box below is provided for quick access to all system commands.
