Invoking and Terminating DDM Services

This section provides instructions for invoking and terminating DDM Services.

▶ **To invoke DDM Services**

- From the Natural main menu, choose **Services** and, from the selection window, choose **DDM Services** or enter a D.

  Or:
  From the Natural main menu, choose **Direct** and, in the **Direct Command** window, enter the following:

  ```
  SYSDDM
  ```

  The **DDM Services** screen appears as shown in the example below:

  ```
   2004-09-09                         DDM Services                 Library: SYSTEM
   17:15:21                V 6.1.1 Pl 9   Software AG 2004     DBID   :
   User: SAG                                                   FNR    :
  +------------------------------------------------------------------------------+
  ¦   Library          DDM Maintenance          Services Profile          Quit   ¦
  +------------------------------------------------------------------------------+

  Logon to DDM library
  ```

  The menus provided on the **DDM Services** screen are explained in the relevant sections of the *DDM Services* documentation.

▶ **To terminate DDM Services**

- On the **DDM Services** screen, choose **Quit**.

  The Natural main menu appears.
