%V - Control of Print Mode

```
%V ⎡ ON  ⎤
   ⎣ OFF ⎦
```

Syntax description:

Command	Function
%VON	Sets screen direction to right-to-left.
%VOFF	Sets screen direction to left-to-right.
%V	Toggles between left-to-right to right-to-left screen direction. For detailed information on how to use the terminal command %V, see *Bidirectional Language Support* in the *Unicode and Code Page Support* documentation.

For further information on print modes, see the session parameter PM.
