Find

This function is used to locate objects in your Natural environment and generate a list of the objects found.

▶ To invoke the find function

- On any Object Handler screen, in the Command line, enter the following:

```
GO FIND
```

For information on the columns that appear on the report screen generated by the find function, refer to the section *Object Specification*. For the subcommands provided with GO FIND, refer to *Commands for Navigation and Special Functions* in the section *Direct Commands*.
