

# MAXIMIZED

If this attribute is set, the dialog is maximized to full screen size and the dialog's size event occurs. If you have specified a size event handler code section, this code section will be triggered. An MDI child window will be maximized to fill the MDI frame window's client area.

<b>Applies to</b>	Dialog (all types), dialog bar control.
<b>Data Type</b>	BOOLEAN
<b>Default Value</b>	FALSE
<b>Possible Values</b>	TRUE / FALSE
