

# RESET-ATTRIBUTES Action

This chapter covers the following topics:

- Description
  - Parameters
- 

## Description

Resets all attributes in the global attribute list to their default values. For the default values, see the section Attributes. It is recommended to use this action before creating dialog elements dynamically with the ADD Action, for example, in an after open event handler.

## Parameters

Name/Data Type	Explanation
Response (I4)	Output Natural error (if applicable).

### Example:

```
/* After open event handler code  
PROCESS GUI ACTION RESET-ATTRIBUTES GIVING #RESPONSE  
PROCESS GUI ACTION ADD...
```
