

Date/Time Picker Control Attributes Window

Accessible Using

1. Double-click on the date/time picker control; or
 2. if selected: "Control > Attributes" or by selecting 'Attributes...' from the control's context menu or
 3. if selected: ENTER.
-

Entries

Note:

For context-sensitive help on attribute entries, select the entry so it has the focus, and press F1.

| Entry in Attributes Window | Represents |
|----------------------------|--|
| Name | Handle name of the date/time picker control (may be overwritten with another name). |
| Font | Output field where the font currently selected is displayed. |
| ... | Dialog box for selecting fonts. |
| DIL text | DIL-TEXT attribute value. |
| ... | Dialog box for determining sources of DIL-TEXT attribute values. |
| Context Menu | CONTEXT-MENU attribute value. Specifies the context menu (if any) associated with the control. |
| Format string | EDIT-MASK attribute value. Specifies custom format definition (if any). Note: The format string used by this control does not use the normal Natural edit mask format specifiers. For a complete list of format specifiers, please refer to the article <i>Working with Date and Time Picker (DTP) Controls</i> . |
| Background: | |
| Selection box | BACKGROUND-COLOUR-NAME attribute value. |
| ... | Invokes dialog box for editing BACKGROUND-COLOUR-VALUE attribute value. |
| Help ID | HELP-ID attribute value. You must use the help topic's .h file to map the numerical ID that you enter here to the corresponding help topic ID (created by a markup in the .hlp file). |
| Format: | |

| Entry in Attributes Window | Represents |
|-----------------------------------|--|
| Short date | STYLE attribute value. System-defined short date format is used. Note: The control does not have a sunken appearance if Windows XP styles are active. |
| Century date | STYLE attribute value. System-defined long date format is used, extended with century information (if not already present). Note: Depending on the active regional settings, this format may be identical to the short date format. |
| Long date | STYLE attribute value. System-defined long date format is used. |
| Time | STYLE attribute value. Control displays (and stores) only times, not date information. |
| Style: | |
| Up-down | STYLE attribute value. Control uses Up and Down buttons to scroll through the values, rather than a drop-down month calendar. Note: This option is implicitly set if the control's "time" style is set. |
| Calendar on right | STYLE attribute value. Drop down calendar is right-aligned with the control, rather than left-aligned. |
| Allow "no value" | STYLE attribute value. Control displays a check box indicating the presence or absence of a value. |
| Calendar styles: | These styles relate to the drop-down month calendar (if any). |
| Week numbers | STYLE attribute value. Week numbers are displayed. |
| No today | STYLE attribute value. Today's date (click-sensitive) is not displayed at the bottom of the calendar. |
| No today circle | STYLE attribute value. Today's date is not highlighted (e.g., circled). |
| State: | |
| Visible | VISIBLE attribute value. Control will be shown. |
| Enabled | ENABLED attribute value. Control can accept user input. |
| Rectangle: | The following four attributes decide the date/time picker control's x and y axis position, its height and its width on the screen. X - RECTANGLE-X attribute value. Y - RECTANGLE-Y attribute value. W - RECTANGLE-W attribute value. H - RECTANGLE-H attribute value. |
| OK | Save settings and exit the window. |

| Entry in Attributes Window | Represents |
|-----------------------------------|--|
| Cancel | Exit the window without saving the settings. |
| Help | Provides online help on the attributes window. |
