

# Natural System Error Messages 3151-3200

## **NAT3151: A command queue overflow occurred. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | A command queue overflow occurred. DB/FNR .../....  |
| Expl. | The database administrator may increase the value for the NC parameter, and/or the command may be issued when a lower level of command activity is in effect. |
| Actn. | Contact your database administrator.  |

## **NAT3152: Internal user buffer too small. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | Internal user buffer too small. DB/FNR .../....   |
| Expl. | The internal user buffer was not large enough to contain the user buffer areas. The database administrator should increase the value of the LU parameter. |
| Actn. | Contact your database administrator.  |

## **NAT3153: Previous Adabas call still in process. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Previous Adabas call still in process. DB/FNR .../....   |
| Expl. | A "CALL Adabas" was issued by a user while a previous call for the user was still being processed. |
| Actn. | Contact your database administrator.   |

## **NAT3154: Adabas call has been cancelled. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | Adabas call has been cancelled by the user. DB/FNR .../.... |
| Actn. | No action required.   |

## **NAT3160: Too many ASSO/DATA blocks active in buffer pool. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | Too many ASSO/DATA blocks active in buffer pool. DB/FNR .../....  |
| Expl. | Too many Associator and Data Storage blocks were marked as active in the Adabas buffer pool for a single command. |
| Actn. | Contact your database administrator.  |

## **NAT3161: Invalid RABN chain in header list. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Invalid RABN chain in header list. DB/FNR .../....                       |
| Expl. | The RABN chain in the header list of the Adabas buffer pool was invalid. |
| Actn. | Contact your database administrator.                                     |

**NAT3162: No space for Adabas buffer pool header blocks. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | No space for Adabas buffer pool header blocks. DB/FNR .../....          |
| Expl. | No additional space was available for Adabas buffer pool header blocks. |
| Actn. | Contact your database administrator.                                    |

**NAT3163: RABN was already in chain. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | RABN was already in chain. DB/FNR .../....                                 |
| Expl. | The RABN to be linked into the RABN header chain was already in the chain. |
| Actn. | Contact your database administrator.                                       |

**NAT3164: Too many work areas allocated for command. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Too many work areas allocated for command. DB/FNR .../.... |
| Actn. | Contact your database administrator.                       |

**NAT3165: Descriptor invalid or non-existent. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Descriptor invalid or non-existent. DB/FNR .../....                                  |
| Expl. | A descriptor name was either invalid or did not exist in the Descriptor Value Table. |
| Actn. | Check program and correct error, or contact your database administrator.             |

**NAT3166: Error detected in inverted list index. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | Error detected in inverted list index. DB/FNR .../....  |
| Expl. | <p>An error was detected in an inverted list index; a descriptor value was not found during a delete operation.</p> <ul style="list-style-type: none"> <li>o Locate the descriptor that caused the error in the additions 2 field of the user control block.</li> <li>o Run the VERIFY option of ADAINV for this descriptor and save the output.</li> <li>o Reinvert the descriptor.</li> <li>o If necessary, restart the database (if this is possible).</li> <li>o Send the following information to your nearest support centre: <ul style="list-style-type: none"> <li>- the output of the VERIFY option of ADAINV;</li> <li>- all available PLOGs;</li> <li>- the FDT of the file containing the error;</li> <li>- if the nucleus crashed, the crash directory.</li> </ul> </li> </ul> |
| Actn. | - if the nucleus crashed, the crash directory. See explanation.   |

**NAT3167: Error detected in inverted list index. DB/FNR :1/:2:.**

|       |  |
|-------|--|
| Text  | Error detected in inverted list index. DB/FNR .../....   |
| Expl. | <p>An error was detected in an inverted list index; a descriptor value was already present during an insert operation.</p> <ul style="list-style-type: none"> <li>o Locate the descriptor that caused the error in the additions 2 field of the user control block.</li> <li>o Run the VERIFY option of ADAINV for this descriptor and save the output.</li> <li>o Reinvert the descriptor.</li> <li>o If necessary, restart the database (if this is possible).</li> <li>o Send the following information to your nearest support centre: <ul style="list-style-type: none"> <li>- the output of the VERIFY option of ADAINV;</li> <li>- all available PLOGs;</li> <li>- the FDT of the file containing the error;</li> <li>- if the nucleus crashed, the crash directory.</li> </ul> </li> </ul> |
| Actn. | - if the nucleus crashed, the crash directory. See explanation.  |

**NAT3168: Internal CID for coupling processing not found. DB/FNR :1/:2:.**

|       |  |
|-------|--|
| Text  | Internal CID for coupling processing not found. DB/FNR .../....      |
| Expl. | An internal "CID" required during coupling processing was not found. |
| Actn. | Contact your database administrator.                                 |

**NAT3170: Adabas RABN for the command not found. DB/FNR :1/:2:.**

|       |  |
|-------|--|
| Text  | Adabas RABN for the command not found. DB/FNR .../....       |
| Expl. | The Adabas RABN required for the command could not be found. |
| Actn. | Contact your database administrator.                         |

**NAT3171: Constant set used by Adabas not found. DB/FNR :1/:2:.**

|       |  |
|-------|--|
| Text  | Constant set used by Adabas not found. DB/FNR .../.... |
| Actn. | Contact your database administrator.                   |

**NAT3172: ISN less than MINISN or greater than MAXISN. DB/FNR :1/:2:.**

|       |   |
|-------|---|
| Text  | ISN less than MINISN or greater than MAXISN. DB/FNR .../....  |
| Expl. | An ISN was either less than the MINISN setting or greater than the MAXISN setting in effect for the file. |
| Actn. | Check program and correct error, or contact your database administrator.                                  |

**NAT3173: An invalid data storage RABN was detected. DB/FNR :1/:2:.**

|       |  |
|-------|--|
| Text  | An invalid data storage RABN was detected. DB/FNR .../.... |
| Actn. | Contact your database administrator.                       |

**NAT3174: Starting RABN for L2/L5 not in address converter. DB/FNR :1/:2:.**

|       |  |
|-------|--|
| Text  | Starting RABN for L2/L5 not in address converter. DB/FNR .../....  |
| Expl. | The starting data storage RABN for an L2/L5 command was not contained in the address converter for the file. |
| Actn. | Check program and correct error, or contact your database administrator.                                     |

**NAT3176: Error in call to Adabas subroutine/inverted list. DB/FNR :1/:2:.**

|       |   |
|-------|---|
| Text  | Error in call to Adabas subroutine/inverted list. DB/FNR .../....                               |
| Expl. | An incorrect call to an Adabas subroutine or an inconsistency in an inverted list was detected. |
| Actn. | Check program and correct error, or contact your database administrator.                        |

**NAT3177: Record not found in indicated DATA storage block. DB/FNR :1/:2:.**

|       |   |
|-------|---|
| Text  | Record not found in indicated DATA Storage block. DB/FNR .../....   |
| Expl. | A record could not be found in the Data Storage block which should have contained it as indicated by the Address Converter. |
| Actn. | Contact your database administrator.  |

**NAT3178: FDT and internal format buffer not consistent. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | FDT and internal format buffer not consistent. DB/FNR .../....   |
| Expl. | An inconsistency was detected between the Field Description Table (FDT) and the internal format buffer;<br>or an internal occurred when updating a multiple-value field. |
| Actn. | Contact your database administrator.   |

**NAT3181: Start of transaction not found on autobackout. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | Start of transaction not found on autobackout. DB/FNR .../....                    |
| Expl. | The start of a transaction could not be found when an "autobackout" was executed. |
| Actn. | Check program and correct error, or contact your database administrator.          |

**NAT3182: Necessary ET data not found in WORK block. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | Necessary ET data not found in WORK block. DB/FNR .../....          |
| Expl. | The necessary ET data were not found in the appropriate WORK block. |
| Actn. | Correct error or contact your database administrator.               |

**NAT3183: Internal no. for database I/O operation invalid. DB/FNR :1:/:2:.**

|       |   |
|-------|---|
| Text  | Internal no. for database I/O operation invalid. DB/FNR .../...                     |
| Expl. | An internally assigned number for a database I/O operation was found to be invalid. |
| Actn. | Contact your database administrator.  |

**NAT3184: A phonetic field name could not be found. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | A phonetic field name could not be found. DB/FNR .../....                |
| Actn. | Check program and correct error, or contact your database administrator. |

**NAT3185: ADAM field not found in compressed record. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | ADAM field not found in compressed record. DB/FNR .../.... |
| Actn. | Contact your database administrator.                       |

**NAT3197: Pool for unique descriptor values too small. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Pool for unique descriptor values too small. DB/FNR .../.... |
| Actn. | Contact your database administrator.                         |

**NAT3198: Value for unique descriptor already exists. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Value for unique descriptor already exists. DB/FNR .../....              |
| Expl. | An attempt was made to duplicate a value for a unique descriptor.        |
| Actn. | Check program and correct error, or contact your database administrator. |

**NAT3199: Inconsistency in inverted list index. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Inconsistency in inverted list index. DB/FNR .../....                                |
| Expl. | During an UPDATE operation, an inconsistency was detected in an inverted list index. |
| Actn. | Contact your database administrator.   |

**NAT3200: Security violation or invalid cipher code. DB/FNR :1:/:2:.**

|       |  |
|-------|--|
| Text  | Security violation or invalid cipher code. DB/FNR .../....               |
| Actn. | Check program and correct error, or contact your database administrator. |
