

# SUTF8 - UTF-8 Format for Sources

This Natural profile parameter specifies the default format to be used when Natural sources are saved.

See also *Profile Parameters* in the *Unicode and Code Page Support* documentation.

<b>Possible settings</b>	ON	<p>The default format for saving Natural sources is UTF-8.</p> <p>All sources will be saved in UTF-8 format, which assures that the source content does not depend on the installed system code page.</p> <p>If the profile parameter SRETAIN is also set to ON, only newly created sources will be saved in UTF-8 format. Existing sources will then be saved in the original encoding, if possible.</p>
	OFF	The default format for saving Natural sources is "code page".
<b>Default setting</b>	OFF	
<b>Dynamic specification</b>	no	
<b>Specification within session</b>	no
