About this Documentation

This documentation describes the Natural programming language statements. It is organized under the following headings:

•	Syntax Symbols and Operand Definition Tables	Information on the symbols that are used within the diagrams that describe the syntax of Natural statements and on operand definition tables.
•	Statements Grouped by Functions	Provides an overview of the Natural statements ordered by functional groups.
•	Statements in Alphabetical Order	Descriptions of the statements (except SQL statements) in alphabetical order. The selection box below is provided for quick access to all statements.
•	Natural SQL Statements	Describes specific statements that can be used in Natural programs to maintain data contained in an SQL database.
•	Referenced Example Programs	Contains additional example programs that are referenced in the Natural statements and system variables reference documentation.

See also the *Programming Guide* for statement usage related topics such as: *User-Defined Variables* | Dynamic and Large Variables/Fields, *Introduction*, *Usage* | *User-Defined Constants* | *Report Specification* | *Text Notation* | *User Comments* | *Rules for Arithmetic Assignment* | *Logical Condition Criteria* | *User-Defined Functions*
